TAMMANY GETTING HOT.

A CRISIS IN ITS AFFAIRS.

Rural Democrats Against the Ring.

Hall Will Not Recognize Connolly or Greene.

NEW YORK, September 18, 1871.

CONFUSION IN THE RING RANKS—A CRISIS IMMINENT.

The latest phases of the municipal fight are creating the greatest excitement everywhere throughout the city. Connolly's action came like a thunderclap upon Hall, Sweeny, and their adherents. All day yesterday and last night the Mayor and his friends were closeted in consultation. The fight is now reduced between Hall and Connolly, and their respective followers. Hall's disposition is shown by his removal of Connolly, thus exercising a power which he has already declared he did not possess. The action of Tilden, chairman of the Democratic State Committee, is aimed at the destruction of the ring. The attempt of Hall to checkmate him, will probably result in a crisis, concerning which it is impossible to speculate.

THE "WORLD" GNASHES ITS TEETH—THE RURAL DEMOCRACY AGAINST THE RING.

The *World's* article, yesterday, accusing Tilden and other Democratic leaders who are in co-operation with him, with entering into a conspiracy with Republicans, created immense surprise. That paper to-day says that Connolly was persuaded into the course he took by promises that he would have protection from the consequences of his conduct. He declares that the new dodge was approved by the Murphy men, as it is thought quite certain to demoralize the Democratic front so as to secure the State for the Radicals in October. This result will be claimed by the Murphy men as their work. The rural Democracy will sustain Tilden, as many of the country leaders have been here for several days, and have given free expression to their disapprobation of the conduct of the Hall and Sweeny faction. The effect of Connolly's action is to place the immense moneyed power of the Comptroller's office in the hands of the bitterest of Tammany.

HALL'S ATTEMPT TO STIFLE INVESTIGATION.

The *Tribune* thinks it is a matter of congratulation that the affair has taken this turn. There was a disposition to strengthen the hands of the Mayor when he seemed anxious to turn the light upon the doings of the ring, but his late action has the air of an attempt to stifle investigation, and by sacrificing Connolly divert attention from the stronger and abler rogues who were to remain in power.

FUNDS PROMISED FOR ALL LEGITIMATE EXPENSES.

Judge Barnard's injunction will be practically treated as a nullity. Mr. Havemeyer has promised the Comptroller and his new deputy to call all the presidents of the banks together and to furnish all the money necessary to carry on the government and pay its legitimate running expenses and provide for its laborers.

HALL'S THREAT TO RESIGN.

Mayor Hall, it is said has repeatedly said that if Connolly did not resign, the President of the Board of Aldermen would become Acting Mayor. He would not have the power of filling any of the places of the heads of any of the departments that might become vacant, as according to the new charter, the power has been invested in the Comptroller, so that in case of the Mayor's resignation, Andrew H. Green, will be virtually Mayor, until the 1st of February, 1872.

WILL NOT RECOGNIZE CONNOLLY OR GREEN.

Mayor Hall has notified all the city departments that he did not recognize either Connolly or Green.

NECESSARY DOCUMENTS FURNISHED—WOULDN'T FILE GREEN'S OATH.

Mr. Green, the new Deputy Comptroller, has delivered to the committee of citizens and aldermen all the documents in the Comptroller's office required in the investigation of the municipal accounts. Mayor Hall's clerk this morning refused to file the official oath of Mr. Green.

THE HERALD SUPPORTS HALL.

The *Herald*, which was yesterday wholly silent on municipal affairs, to-day pronounces in favor of Hall, and thinks the Comptroller had better retire from his office.

COMPTROLLER CONNOLLY'S REPLY TO HALL.

The Comptroller sent the following letter to the Mayor about half-past eleven this morning:

COMPTROLLER'S OFFICE,
September 18, 1871.

Hon. A. Oakey Hall, Mayor:

MY DEAR SIR: I have read in the morning papers only your letter of this date, and beg leave thus promptly to inform you that, as under advice, I have neither in fact or equivalent resigned the office of Comptroller of the City of New York. I deny the authority of law in the Mayor to exercise the power attempted by your favor, and in partial support of the denial quote the words of your former communication: "The Mayor cannot suspend any head of department—not even pending an investigation. I can only refer the charges to the Common Pleas, who alone can remove after considerable time for trial." My previously announced determination not at present to retire from my official position is still unchanged. By the appointment of Andrew H. Green as Deputy Comptroller, I have endeavored to guard the public interests committed to my care. In such effort, while calling critical attention to the past forty-eight hours, including your official acts and my own, I ask the support of that supreme power, the public sentiment of the citizens of New York and the State.

Very respectfully,
RICHARD B. CONNOLLY, Comptroller.

A COMBINATION OF HONEST MEN NEEDED.

The *Tribune* looks with favor upon the move among the anti-Tammany Democrats to put down corruption. It says it was not possible for the Republican party alone to carry out the great and radical reforms which are needed in the administration of this city. It is only by a combination of all honest well intentioned citizens that they can do anything towards eradicating the evils of fraud and waste.

THE "TIMES" PROMISES NEW REVELATIONS.

The *Times* says that the guilt of Hall, Sweeny, Tweed and Connolly can be established from papers in the Comptroller's office. Facts yet to come out will startle the public from one end of the country to the other, and will stagger even the brazen impudence of the ring advocates. We are entitled to speak with authority on the subject.

On entering upon the discharge of his duties the new Deputy Comptroller Green immediately doubled the detective force in the Comptroller's office, and placed ten policemen in the office for the purpose of preventing the abstraction of important papers. The accounts are now being straightened by a force of experts, and an accurate statement of the condition of the Treasury will be made public.

NEW COMBINATIONS

Are to be formed among the politicians. Believing that the Germans and Irish will go with the Linden movement, there is great alarm among the candidates for local offices. On account of the formation of a new Democratic Committe, all the friends of Connolly declare that Hall's policy has disrupted the Democratic party and destroyed Tammany Hall.

THE STOLEN VOUCHERS.

At a meeting of the Board of Aldermen to-day a communication was received from Mayor Hall requesting them to authorize a reward of one thousand dollars for such information as would lead to the discovery of the persons concerned in the stealing of the vouchers.

THE NEW GERMAN PAPER.

The project of starting a new German morning paper in this city, which was suggested some time ago, will shortly be carried into effect. It is said sufficient capital is pledged to secure the success of the enterprise.

THE COMMITTEE OF CITIZENS WILL SUPPORT GREEN.

Judge Ledwith and a delegation of the committee of citizens waited upon acting Comptroller Green and assured him of their support.

OPINION OF CHAS. O'CONNOR.

Chas. O'Connor, an eminent lawyer, has prepared a legal opinion, in which he holds that Connolly is legally in possession of the office of Comptroller, and that Mayor Hall has no power to remove him. In consequence of the Mayor's letter to the heads of the various departments repudiating all official knowledge of Comptroller Connolly or Andrew H. Green as his deputy, the city paymaster has refused to pay any more warrants signed by either of them.

THE LABORERS TO BE REFUSED PAYMENT.

The laborers who are now holding warrants for their work will be refused payment, and to many of them there is at least a month's pay due. All the public works will therefore have to be stopped, and over four thousand men thrown out of employment.

WARRANTS OF THE COMPTROLLER AND DEPUTY COMPTROLLER TO BE CASHED.

William F. Havemeyer, and other members of the Committee of Seventy, have made arrangements by which the banks of this city will cash any warrants signed by the Comptroller and Deputy Comptroller Green. They say the next Legislature will justify their action, and make appropriations to pay back the money thus borrowed.

WILL THERE BE WAR?

There were all sorts of rumors in circulation during the day and evening in reference to the municipal difficulty, many of which were of the most improbable character. Late in the afternoon it was hinted about that Hall would probably resort to force to get possession of the Comptroller's office, in consequence of which Connolly took all the precautionary means necessary for the expected emergency.

Comptroller Connolly remained at his office throughout the day and was constantly receiving prominent citizens, from whom he received manifestations of support. His private counsels Samuel G. Courtney, late United States Attorney, and Judge Beach were with him most of the time, together with a few other leaders of the reform movement. Courtney has been the legal adviser of Connolly for several days. It is believed that from his well known anti-Tammany proclivities, he was mainly instrumental in dictating the course which the Comptroller has taken. This evening Mr. Courtney, in delivering to Green the keys belonging to the departments of the Comptroller's office, informed that gentleman that Mr. Connolly placed upon him the onus of taking that course, which would result in thoroughly developing every fact connected with the financial affairs of the city, whoever might be affected thereby. It was expected he would do his duty without fear or favor.

THE WEATHER.

WAR DEPARTMENT,
OFFICE OF THE CHIEF SIGNAL OFFICER,
WASHINGTON, D. C., September 18, 1871, 7:30 P. M.

The highest barometer has extended eastward over the middle and eastern States, but has fallen during the day, and is now central in Delaware. A small center of low pressure has advanced over Minnesota and eastward to the northern part of Lake Michigan, with brisk winds circulating in a small area around it, which amounted to a northeast gale during the night on Lake Superior. Brisk southerly winds now prevail on Lakes Michigan and Huron; light northwest winds, with rising barometer in the northwest. Cloudy weather has prevailed from Maine to Virginia, and also in the southern and gulf States until this afternoon, where cloudy weather is now reported, with occasional light rains. The barometer has risen at the Rocky Mountains and Pacific stations.

PROBABILITIES.

The barometer will probably fall very generally on the lower lakes and Atlantic coast, and the disturbance on Lake Michigan move eastward, extending to the middle States on Tuesday. Cloudy weather with occasional light rains are probable for the Southern and Gulf States; a rising barometer with clearing weather and falling temperature on the upper lakes; brisk winds on the lower lakes to-night, and Tuesday morning.

The Official Burglary in New York.

[From the Journal of Commerce, Democratic.]

The voucher thief must be caught if detective acumen and money can catch him. Rewards must be offered by the Mayor and Common Council, and the police force must strain every sinew to secure that man and the stolen documents. Delay, remissness, want of vigilance or want of success, will bring down upon the responsible heads of the city government, and, in especial, the police, the terrible suspicion that men who commit burglary on public offices and carry off evidences of official guilt are sure of protection from the Ring. This suspicion might be unjust, but it would be entertained, and that dangerous feeling which is abroad, manifesting itself in threats of vigilance committees and lynching, would become something more than a subject of joke or contempt. The burglar—unless we make the improbable supposition that he was prompted to his crime for partisan ends to intensify the public feeling against those accused of corruption—is either himself a culprit who did not dare to face the revelations pigeon-holed in the Comptroller's office, or he is a friend or servant of some master scoundrel. In either case the public clamors to know who he is, and what his motives, and what are the motives of such during the State Prison by his crime. The quicker every member of the city government, who is by proof or rumor implicated in the frauds, bestirs himself to arrest the thief and restore the documents, the better will it be for the parties now on trial by public opinion.

The Political Outlook.

[From the New York Herald.]

The General results of the Maine election, in their bearings upon the impending Presidential contest correspond with returns from California. They embrace a popular indorsement of General Grant's administration which cannot be misinterpreted in reference to the Presidential succession. They show that on the Atlantic coast as on the Pacific seaboard the Administration is a tower of strength to the Republican party, which the Democracy in their present demoralized and disorganized condition cannot shake. While the figures of the August elections in North Carolina and Kentucky indicate that the prevailing public sentiment of the interior of the country is in accord with that of our western and eastern extremities. Indeed, we have seldom, during the last forty years, had a better showing than this for the party in power in the local elections of the year next preceding that of the Presidential contest. In 1867, our political readers will remember, the Republicans in those local elections were as frequently beaten, and the Democrats were so remarkably successful, that they were confident of carrying the White House, Congress and everything else before them in 1868.

In connection with the report from Washington that a scheme is on foot to acquire more Mexican territory in payment for the claims that country owes us, the New York *Bulletin* says: "We know that certain persons, including several Congressmen with Gen. Butler at their head, organized a colonization scheme upon false pretenses, and sent out a colony of 'mess-pickers' who had a very miserable time of it while there; and that the original stockholders of this Lower California company made a good deal of money out of the enterprise by selling worthless shares to credulous buyers. We also know that an attempt was a year or so ago to 'write up' Lower California in the newspapers, and pamphlets were generally circulated describing the beauty and fertility of the land, the characteristics of its Arcadian climate, the richness of its mines and the extent and value of its pearl fisheries.

HORACE H. DAY is a competitor for the $100,000 prize for the most successful method of propelling canal boats. He has discovered that compressed air can be transported twenty miles in suitable pipes, with a loss due to friction of less than one per cent., and he proposes to lay an air pipe along the Erie canal, from Buffalo to Albany, attached to reservoirs every ten miles, of such capacity as to supply the propelling boats with their charges of compressed air, which Niagara Falls is calculated to furnish uniformly. In the winter, when the canal boats cannot run, it is proposed to sell this power to the cities along the line of the canal, to be used through the ordinary steam engines in place of steam.

THE hotbed of Democracy in Pennsylvania is described as follows: "Our readers will probably be somewhat incredulous when we tell them that in many parts of Bucks county the English language is still a foreign tongue, and that even those who speak broken English are difficult to understand. These people belong to an element that has been settled there for a century. If our tongue is ever to get the ascendancy in such districts, and there are many of them in the State, it must be by an infusion of new emigration, to be attracted by railroads.

THE argument in the case of the New Jersey Railroad Lease has occupied the attention of the Court of Chancery of that State for nearly a week. The decision of the Chancellor is looked for with great interest, and both sides are confident.

STOCKS.

The Stock Exchange was the scene of considerable excitement through the day and the fluctuations were wide and frequent, with the feeling decidedly bearish. There was a heavy decline in prices, especially in Lake Shore, Wabash, Northwestern, Ohio, Western Union Telegraph, Pacific Mail, Union Pacific, Erie and New York Central and Scrip. This decline was succeeded by a recovery ranging from ½ to 1½ per cent, followed by a downward reaction. Western Union Telegraph sold down to [illegible], Pacific Mail to [illegible], Erie to [illegible], Union Pacific to [illegible], Wabash to [illegible], and Ohio to [illegible]. Lake Shore, after selling up again to [illegible], fell to [illegible]. The market closed excited and weak at the lowest figures of the day, and with a pressure to sell in the entire list. The unsatisfactory report on the Lake Shore dividend, the new state of affairs at City Hall, the unfavorable bank statement last Saturday, and the apprehension that there may be trouble in the gold market at an early day, have helped the decline.

Penn Avenue Again.

To the Editor of the Pittsburgh Commercial:

In *Sunday's Leader* Mr. Littell again attempts to justify the shortcoming of the Penn Avenue Commissioners—a commission whose masterly inactivity necessitated the owners of property upon the east end of the avenue to ask for the resignation of its members. That action may have been considered severe, but it was necessary, and when the silent Commissioners read Mr. Littell's "onslaught," they may well exclaim, "Save me from our *friends!*"

Mr. Littell suggests that probably the communication which appeared in the COMMERCIAL, reviewing his previous "rejoinder," was published over borrowed signatures. Let him not "lay that flattering unction to his soul," nor indulge the vain hope that silly twaddle about the Opera House will distract the attention of the parties who asked his commission to resign. The names of the signers to that petition were published; they are well known to the community, and Mr. Littell has undertaken more than he can accomplish if he hopes to drag these gentlemen into a *personal* discussion with himself. As to the mythical "legal gentleman" who brings him to the stand, it is only necessary to say that he is a creature of Mr. Littell's imagination. The questions of *veracity* between us may be safely left where they now are—upon record in the *public* prints. We reiterate here what we stated in reply to Mr. Littell's "rejoinder," and we say further, that our statements are true in every particular, and we see no reason to change, alter or amend them. While our Commissioner is in the explanatory mood, perhaps he will tell the property owners in whose "safe in the city" the contract for the pavement is?—why he has never seen it? and why he talks so glibly about a document which has never been subjected to his keen examination?—would it not be well for the gentlemen to get that contract out of the "safe," and—enforce it? The time occupied in writing his "rejoinders" and "onslaughts" might be profitably employed in this way.

Touching the change of grade at the extreme east end of section No. 2—about which Mr. Littell harps so much if his statements were all facts instead of a tissue of absurdities, it would not help his case—the pavement being to-day more than *two miles* from the Yellow tavern!

Now that "the eyes of the public are upon them," we may learn something from the Commissioners about the *preserving process* by which the wood is supposed to be treated. A sample of these "preserved" blocks may be seen at 87 Water street. It is a fair average of all those now being laid. Parties interested may examine it, and others, for themselves. We have no hesitation in saying that the "process," as conducted in this case, is a farce, notwithstanding "they (the contractors) got an experienced man from New York to do it." Perhaps the contract for this work is also in a "safe in the city." It will probably be necessary to bring it to light before all the assessments are paid. There is one paragraph in this "onslaught" which we heartily indorse: "The correspondence will be attended with some good effects. It has turned the eyes of the public upon us. * * The different authorities and contractors will *now* be likely to try and keep themselves clear of public odium and condemnation by performing their duties energetically and promptly." It is never too late to mend, and these words have the air of *true repentance*. If the commission and contractors even *now* go earnestly to work to avoid "odium and condemnation," the eyes of a generous public may wink charitably at their lamentable failures in the past.

STATE POLITICS.

The Democratic nominating convention for Luzerne county, held at Wilkesbarre on Wednesday and Thursday, was not harmonious by any means. All day Tuesday was spent in selecting a candidate for Senate, and the convention met Wednesday morning to complete its labors. After a session lasting till one o'clock Thursday morning, the following persons were nominated: Associate Judge, D. K. Morse; Assembly, E. F. Kinsey, P. De Lacey; Treasurer, Edward Gunster; Sheriff, Aaron Whitaker.

Col. Frederick S. Pyfer has been nominated as the Democratic candidate for Mayor of Lancaster.

The Democrats of Tioga county have put the following candidates in nomination: For Judge, M. F. Elliott; Assistant Judges, T. R. Anderson, C. L. Patterson; Assembly, A. S. Brewster; Commissioner, J. T. Frost; Auditor, J. B. Cudworth.

The Montgomery Republican County Convention met at Norristown on Thursday. The following ticket was nominated: H. W. Kratz and J. G. McQuade for assembly; William Allebaugh for Sheriff; T. W. Bean for District Attorney; William Fox, Treasurer; Joshua Ashbridge, Commissioner; A. D. Hunsicker, Director of the Poor; Joseph Mintzer, Auditor; Lewis Hallman, Coroner, and J. P. Tyson for Surveyor. The resolutions adopted indorse President Grant and Governor Geary, and nominate Hartranft as a candidate for Governor next year. Montgomery will give a good account of herself.

Four Democrats and six Republicans met in Philadelphia on Thursday, and nominated an independent ticket for city officers, headed by James M. Riddle for Mayor, the remainder of the candidates being taken from the party tickets.

The Democrats are terribly worried about the Franklin and Cumberland and York and Adams Senatorial districts, the domestic strife in each being so great that they fear there may be Republican victories.

The Philadelphia *American Democrat* says: "We hear a rumor on the street that many prominent Democrats are desirous of substituting on the ticket Mr. George M. Dallas or Mr. Robert E. Randall for City Solicitor, in place of Mr. Thomas J. Barger. The reason for this is that Mr. Barger's nomination was forced upon the Democratic party by the Irish Catholic ring, and his connection with that objectionable element is by no means calculated to insure his success at the polls."

The Philadelphia *Sunday Republic* says that with proper and united efforts the Republicans can carry all their own representative districts and two claimed by the opposition.

THIRTY YEARS A RECLUSE.

Remarkable Case—A Lady Dies After Thirty Years' Confinement to Her Room.

In Kingston, Luzerne county, on the 5th inst., there were committed to the earth the remains of Mrs. Cynthia Jones, wife of Reuben Jones, a Justice of the Peace. The indisposition of Mrs. Jones dates as far back as 1839, and seems to have arisen mainly from extreme sensitiveness of mental disposition, which only needed the death of a promising daughter to give decided character and furnish food to a natural imbecility. This event occurred in 1841, and Mrs. Jones has been a recluse since that time, spending her life in the memory and associations of her child. At times there would come back to her part of her youthful vivacity, while at others she would sink into a deathlike state, her speech deserting her. Her voice, in early life finely toned, became hoarse and discordant from long months of absolute silence and entire seclusion.

Mrs. Jones was a woman of superior education, was gifted with a fine memory, and was well read. Few visitors troubled her, and many grown up people living in the neighborhood never saw her face. None knew the extent or the nature of her disease, although several practical physicians attended her through a series of years. She had been three times in the street since 1841, and then only for a few minutes. In 1865, when the great freshet swept through the valley, she had to be removed and carried across the street to a higher level; but for the last eighteen years, with the exception in this instance, she has never crossed the threshold. A day or two before her death she asked her husband about "father," and seemed to suffer on account of his absence. This, perhaps, may illustrate the nature of her disease and the bias of her life, her father being dead for thirty-three years. No doubt she shared his company every day; she had no affinity with the world. The loneliness of her life, fostered by a morbid and affectionate disposition, seared her heart against its companionship, and, as if abandoning all comfort, she sought her deathbed and surrounded herself with its silence and solitude for thirty years.

The court dismissed him from office, and ordered him to pay a fine and costs amounting to over two hundred dollars.

The Wheat Prospects in Europe.

The latest information on the subject is to the effect that the wheat crop in England and Scotland is decidedly under an average, but the quality is good. It is also represented that in consequence of the lateness of the harvest and unfavorable state of the weather, fears were entertained that it may be injured in the stacks. Lower prices are not expected. Although the stocks in London and at French outports are large, it is evident that large foreign supplies will be required, and that France will be under the necessity of importing largely during the next twelve months.

A CORRESPONDENT (J. N. S.) at Jamestown, Mercer county, writes us that the work on the continuation of the Jamestown and Franklin Railroad, from the former place to Ashtabula, O., is being pushed as rapidly as men and material can make it go. The fair last week was a great success financially, over ten thousand tickets having been sold. The display of horses and cattle was very large and fine, while nothing equal to the floral department was ever seen in the county. The grounds, situated about a mile from the town, contain twenty-five acres, and are well laid out, with a good half-mile track.

WASHINGTON.

American Credit High in Europe.

Responsibility for Hodge's Defalcation.

Special Dispatch to the Commercial.

WASHINGTON, D. C., September 18, 1871.

Who Was Responsible?

The controversy between the Pay and Treasury Departments over the responsibility for the Hodge defalcation continues brisk. The Treasury claims at least great carelessness on the part of the Paymaster General, since Hodge could obtain no money from the Treasury in the first instance except upon requisitions approved by the Paymaster General. It appears that exception was made in Hodge's case to the rule requiring a periodical settlement of accounts at the time the war Department order was issued requiring all officers who had been here over three years to close their accounts, with a view to transfer them to other posts. The Paymaster General, after prolonged effort, succeeded in having exception made in the case of Hodge. Those who take sides with the Treasury in the controversy cite these facts as evidence not only of carelessness, but of official responsibility for the defalcation.

American Credit in Europe.

A letter was received at the Treasury Department this morning from General Spinner, in which he states that American credit in Europe stands very high. Referring to the case with which the French loan was disposed of, and the difficulty our government had in selling its five per cents, he says the former realized but seventy-five cents on the dollar, while our bonds were negotiated for dollar for dollar.

THE PARDON OF MR. McGEE.

How it was Secured—The Opinions of the Physicians—The Document Obtained After Considerable Trouble.

As a matter of public interest, we publish below copies of the petition and also of the certificates of the physicians, which documents were effective in procuring the pardon of ex-Commissioner McGee from the Governor:

THE PEOPLE'S PETITION.

To His Excellency John W. Geary:

The undersigned have read the accompanying medical certificates of Drs. John Dickson, James King, John Hamilton, and E. S. Hanna, relating to the present health and physical condition of William H. McGee, now in confinement in the Allegheny County Workhouse, in execution of a sentence of the Court of Quarter Sessions of said county, and from our knowledge of the high medical standing of these gentlemen, and the public confidence which they enjoy as men of known truth and integrity, are satisfied that these certificates truthfully represent the actual condition of said William H. McGee, and that considerations of mere humanity justify and demand the exercise of Executive clemency in his case.

We accordingly earnestly advise your Excellency to grant a pardon to said William H. McGee on the ground set forth in said certificates and on no other ground whatever, and assure your Excellency that in our opinion such exercise of clemency would be an act of humanity warranted by the highest considerations of right and mercy.

This petition was signed by representatives of all our city papers with but a single exception, and also by a number of prominent citizens.

DR. JOHN DICKSON'S CERTIFICATE.

PITTSBURGH, September 13, 1871.

I have this day examined Wm. H. McGee at Claremont. His health is suffering from confinement, and he will probably not live through the term for which he was committed.

JOHN DICKSON, M. D.

THE CERTIFICATE OF DR. JOHN HAMILTON.

ALLEGHENY, September 11, 1871.

The undersigned again, to-day, examined Wm. H. McGee, imprisoned in the Allegheny County Workhouse, and his present and prospective condition confirms in every particular the correctness of the opinion testified to on the previous examination, namely: That his health is suffering severely (dangerously) from the effects of his confinement, and that if not liberated the probabilities are against his surviving the termination of his sentence. In corroboration of this, he has become much emaciated; his weight is reduced from 140 to 115 pounds; he has pains through his chest; his respiration is very feeble, especially in his left lung, and in his weak and debilitated condition, there is great danger of tubercular deposition, consumption being hereditary in his family.

JOHN HAMILTON.

THE CERTIFICATE OF DR. HANNA.

HIS EXCELLENCY, JOHN W. GEARY—*Dear Sir:* I address you again in relation to the pardon of our ex-County Commissioners, Messrs. Neely and McGee, now confined in the Allegheny county workhouse; and as the attending physician of the institution, I am clear in saying that Wm. H. McGee is now in a much worse condition physically than when he entered the institution, and is really and truly in a sinking condition, and if much longer confined his life must pay the penalty; and it would be but an act of charity and mercy to exercise executive clemency in the case of W. H. McGee.

E. S. HANNA, M. D., Physician to the Allegheny County Workhouse.

I fully indorse the opinion of Dr. E. S. Hanna in reference to Wm. H. McGee.

JOHN HAMILTON, M. D.

ALLEGHENY, September 13, 1871.

DR. JAMES KING'S CERTIFICATE.

PITTSBURGH, September 13, 1871.

Having, on Monday last, made a careful examination of Wm. H. McGee, referred to in the above opinion of Dr. Hamilton, I concur fully with him in regard to the man's physical condition. Not having known Mr. McGee, nor examined him previously, I cannot say how far his health has declined since his commitment, but judging from all the indications present, I have no doubt whatever of the dangerous tendency in his case, especially under the influence of his continued confinement. JAMES KING, M. D.

The gentlemen who had the business of obtaining the pardon in hand worked most energetically before bringing their efforts to a successful termination.

ALLEGED EMBEZZLEMENT.

Charge Against an Ex-Insurance Agent—He is Arrested and Under Bail.

Christopher Y. Wempie, Vice-President of the Manhattan Life Insurance Company, of New York, made information before Alderman Neubert yesterday afternoon, charging J. Y. McLaughlin with embezzlement. The information set forth that defendant, during the period between June 30, 1869, and April 1, 1871, when his connection as agent of the company ceased, collected in cash $7,839 69, and promissory notes of the value of $2,115 85, all of which he failed to account for to the company, and as the prosecutor alleges, has attempted to defraud the company by converting said funds to his own use. Mr. McLaughlin was arrested and held in $10,000 bail for a hearing at ten o'clock this morning. It is proper to state that Mr. McLaughlin denies the charge and is confident he will completely vindicate his character before the public.

The Commercial at Edgewood.

For months past there have been complaints that subscribers to the COMMERCIAL at Edgewood Station, on the Pennsylvania Railroad, have been unable to get their paper regularly. Mr. Hugo, the baggage master on Conductor Routh's train, is exceedingly punctual in the delivery of the package, and is very careful to have the requisite number therein. The fault, therefore, is not his; but, nevertheless, the complaints are very annoying to him, as he is anxious that every subscriber shall get his paper regularly. The package is delivered at the station house about seven o'clock, from the outward-bound train, and is opened by those who come there to make the seven-twenty train in. Only a portion of our subscribers come in on this train, while others wait for the eight-twenty-five and nine-ten trains. Some of these are deprived of their paper almost daily; and, as their object in having it sent out is that they may peruse it on their way in to business, their deprivation of it is most annoying. Mr. Hugo has obtained information that parties who have not ordered (and of course do not pay for) the COMMERCIAL are in the habit of taking it from the package, and he wishes us to give public notice that if they do not cease this practice they will be exposed. He has their names, and will send them to us for publication if they persist in their dishonest course. They might as well go into their neighbor's cellar every morning, and appropriate something there. Indeed, some of our subscribers, we know, would rather part with twice the value in "creature comforts" than be deprived of their "mental food" in this way. The proper course for those who prize the COMMERCIAL so highly, is to leave their names with Mr. Hugo, who will take pleasure in serving them regularly. They will appreciate the paper still better when they pay for it and know that they are not defrauding others in getting it.

Fourteenth Ward Republicans.

The Republicans of the Fourteenth ward held a meeting at the old school house on Saturday evening. Mr. Henry Lloyd, Chairman of the Vigilance Committee, called the meeting to order. Mr. William Reese was elected Vice President and William Holmes and C. L. Magee Secretaries. A large number of persons was added to the Vigilance Committee. John D. Fleming, Isaac Reese and John Grey were appointed a committee on finance, and the meeting adjourned to meet on Friday evening next at the same place.

Alleged Fraudulent Conversion.

Yesterday afternoon P. Fleisher, of the firm of Adler, Rosenberg & Co., made an information against Wm. Fehr, A. Weigand and Samuel Graber, charging them with fraudulently receiving and assigning the property of Fehr & Weigand with intent to defraud their creditors. Warrants for the arrest of the accused have been issued. If a compromise of some kind is not effected the suit promises to be an interesting one. The amount involved is about fifteen hundred dollars.

NOTICE TO CAPITALISTS.—As will be seen by advertisement, the Randolph County Agricultural Implement Manufacturing Company, of Huntsville, Missouri, offer for sale their valuable property at that place at a bargain. For particulars see advertisement, or apply to the agent, J. C. Shafer, at Huntsville, Mo.

THE GREAT BRIDGE PROJECT.

Books for Subscription to be Opened About the 1st of October—The Estimates Carefully Revised—Favorable Propositions from Bridge Builders.

We have already given the outlines of the great tripartite bridge project, which is now taking definite shape, and will soon be in course of accomplishment. The purpose is to connect the western portion of the city of Allegheny, and the Saw Mill Run region, with Pittsburgh, by throwing bridges over the Allegheny and Monongahela, and joining these by a span leading from the Point. The original estimates of the work have been carefully revised by experienced engineers and builders, and it has been demonstrated that the entire expenditure need not exceed one million dollars. This is the maximum figure. Responsible builders will be found willing to take the contract at eight hundred thousand dollars. The corporators held a meeting yesterday, and appointed a committee, consisting of Messrs. Robinson and McCune to prepare the necessary subscription books. It is thought that the committee will be ready to open books for subscription to the capital stock about the first of October. If the cost does not exceed one million—and there is no reason why it should—the bridge will pay dividends from the beginning, and the stock will doubtless soon rank among the best paying in the city. Capitalists are aware that our bridge stocks have been uniformly profitable investments, and from the necessities of her situation Pittsburgh must continue to be a city of bridges. Those who take the trouble to think over the matter, will perceive advantages in the tripartite enterprise not possessed by any other. The distance between the St. Clair street bridge on the Allegheny, and the Smithfield street bridge over the Monongahela, is much greater than that between any of the other bridges in the thickly populated districts, thus giving an immense territory which will be tributary to the triple bridge. Then again, the Point wards are almost wholly devoted to manufacturing, shipping, boat building, etc., which calls thousands of mechanics there daily, from Allegheny, and from the South Side, by bridges and ferries. In addition to those thousands who would naturally patronize the tripartite as affording them the shortest route to the city, other thousands will be induced to locate in the lower part of Allegheny (the only portion of that prosperous city not already built up,) and in the Saw Mill Run valley and vicinity. The immense country travel from the Steubenville and Washington pikes, the river road leading to Chartiers valley, and other highways in that section, as well as that from the townships west of Allegheny city, would mainly pass over this bridge. Calculations as to the probable receipts, based upon these and other facts, have been made, and with the most encouraging results. Another favorable indication is the fact that responsible bridge builders are willing to undertake the construction of the entire work, and take at least half of the contract price in stock. Under these circumstances, the enterprise cannot fail to be prosecuted to completion, and to pay handsomely on the investment. We might also mention the fact that the company has authority to construct and operate an incline railway at the Southern terminus of the bridge, which would open to settlement a large extent of country within easy access of the city, and would prove a valuable feeder to the bridge, as mechanics and laborers would seek homes on the top of the hill where they would be out of the dust and smoke, and at the same time be able to pursue their avocations in the city. As it is the intention to construct the bridge so as not to interfere with navigation, it will form a valuable improvement to both cities, and in addition to largely enhancing the value of properties near its location, will build up with dwellings territory which is now comparatively unoccupied, and likely to remain so for years unless the bridge is built. The subject is one well worthy the attention of capitalists, and we cannot doubt but that there will be a very active demand for stock.

AN INCORRIGIBLE GIRL.

The Alleged False Pretender.

Ella Schell, the little girl arrested for purchasing goods at Horne's store under false pretenses, was yesterday sent to the House of Refuge. Her mother and father, who reside in Allegheny city, on learning of her arrest visited the Mayor and requested her to be committed to the institution named. They stated that she left home to live with the family of Mr. Chas. Hays, with whom the parents supposed she still resided. She left her place about two weeks ago and took boarding at a house on the hill, where, young as she was, being only fifteen years, she was ruined. Her parents knew nothing of her until reading yesterday's paper. The young girl, it seems, had a weakness for procuring money and goods under false pretenses, and a large number of persons recognize her as the person who not long since collected money from them ostensibly for her employer, when in fact, it was for her own use. The Mayor, himself, not long since was accosted by a gentleman who asked him if he had sent a little girl to them to collect funds for a Sunday School. He answered in the negative, when the gentleman informed the chief magistrate that the girl had called at nearly every house on Centre avenue to Minersville, and obtained money by using his name for a Sunday School. These and various other sharp cunnings known to the parents induced them to have her sent to the Refuge, and in the afternoon an officer took her to that institution. She thought she was going to the Work House for four months, and wept bitterly when she found the contrary to be the case.

Mary Leape, the girl who accompanied Ella to Horne's on Saturday evening, and who says her name is Johnson, having married a man of that name in the State of Illinois, was discharged; promising to return on the evening boat to her home at Webster, Westmoreland county, Pa.

LIST OF CASUALTIES.

A Woman Drowned in a Well—The Gelston-Dowling Shooting.

A series of casualties has occurred since our last: Cathrine Rehlinwelt, residing on Mt. Oliver, was accidently drowned in a well on the premises yesterday morning. She arose early, preparing her husband's breakfast, and he ate and went to work. The son soon after arose but was unable to find his mother, until after a search, she was discovered in the well. The head was submerged and the feet were stretching out of the water. It is supposed she was leaning over the well drawing water, when she lost her balance and fell into it, head foremost. Coroner West held an inquest and a verdict of accidental death was rendered.

An inquest was yesterday held upon the remains of Lawrence Dowling, shot and killed at Glenwood Grove by officer Gelston, on Saturday evening. The evidence adduced tended to show that the sad affair was purely accidental, and a verdict was rendered accordingly. Gelston stated that he was surrounded by a crowd and knocked down, and that several of the men were on top of him, beating and kicking him and holding him down. He heard cries from some of the crowd, urging his assailants to kill him and three shots were fired before he discharged his pistol. At length he fired in the air, thinking to startle his assailants, so that he might have a chance to get up. He had no intention of shooting Dowling, or, in fact, anybody else. Dowling was a friend of his, toward whom he had the kindest feelings. The father of the deceased does not believe that Gelston fired the fatal shot, and is so firmly convinced of it that he came over and offered bail for the prisoner's release. He did not succeed in effecting his liberation, however. M. Swartzwelder has been retained as counsel for Gelston.

Dowling and the young man Keenan, who was drowned, were companions at the Forester's picnic on Saturday.

WINES AND LIQUORS.

Where to Get the Purest and Best.

Nearly all persons have need at times of a pure stimulant; even the most temperate frequently find themselves under the necessity of using wine or spirits for medicinal purposes. Messrs. Littell & Mechling, of No. 237 Liberty street and No. 244 Penn street, have built up a solid reputation for selling none but the best and purest of wines, brandies and whiskies, imported and domestic.

Mr. James Littell, the senior member of the firm, is one of our best known and most progressive citizens, going in for every thing that will advance the interests and importance of our city. He has been for a number of years a member of our City Councils, and is now an active worker in the Select branch. Mr. Mechling is also well known for his energy and enterprise, and has a very high standing in the business community. From small beginnings the firm have brought their business up to be the largest in the city. Their spacious storeroom extends through from Liberty to Penn street, and contains at all times from $275,000 to $300,000 worth of stock.

Fine whiskies are a specialty with Messrs. Littell & Mechling, their present supply amounting to something like three thousand barrels, all of favorite and well known brands, ranging in age from one to five years. Of brandies they also carry a large stock, directly imported for them. Their assortment of wines of all qualities embraces champagnes, ports, sherries, Madeiras, Malagas, clarets, and a very fine domestic article, the Pleasant Valley Wine Company's sweet catawba, which can be kept on draught without souring. In addition to these they have the finest makes of Irish and Scotch whiskies, Holland gins, rum of every reliable brand, bitters, etc., etc.

The house is well known far and wide for its upright dealing, and its business is constantly increasing. Merchants from abroad, visiting the city to lay in their stocks, should call at 237 Liberty street. Once there, they will be sure to purchase.

Messrs. Littell & Mechling supplied the choice wines and liquors for the banquet given to the Baltimore excursionists, at City Hall, some months since.

AN IMPECUNIOUS PRISONER.

Released Under the Insolvent Laws.

In the Court of Common Pleas yesterday, Martin O'Connor, through his counsel, Colonel Glenn, presented a petition, setting forth that he had been imprisoned in the county jail for three months past, by virtue of the sentence of the Court of Quarter Sessions, passed on the 16th of June last, requiring him to pay ten dollars to the Directors of the Poor of Allegheny county, to pay the sum of seventy-five dollars to the prosecutrix, and the further sum of one dollar and fifty cents per week, for five years, (for the support of the child) and to give bonds in five hundred dollars for the payment of the same. He prays that he may be permitted to give bond in such sum as the Court may approve, conditioned for his appearance at the next term of Court to file his petition for the benefit of the insolvent laws, and that on giving said bond he may be discharged from prison. The application was accompanied with a bond for five hundred dollars, conditioned as aforesaid, which was approved by the Court, and the petitioner released from jail.

Trouble in the Family.

Yesterday morning the corner of Fountain street and Hickory alley was the scene of considerable disorderly conduct. It appears that a man named August Ecker had visited a house in which resided Henrietta Barnstopp. Mrs. Ecker desired to stop these visits and learning that her husband was in Henrietta's residence, she visited the abode. No sooner had she entered the door, however, than, as she alleges, August and Henrietta put her out and called her names. Mrs. Ecker at once visited the office of Alderman Butler and made an information against Mrs. Barnstopp and Ecker, charging them with surety of the peace and also against her husband for abandonment. Bail for a hearing was given in each case.

Alleged Larceny.

Alderman O'Donnell had a visit yesterday from Thomas Brady, who made an information against Charles Haller, charging him with the larceny of $37 28. The prosecutor states that he and the defendant occupied the same room in a boarding house; that on Saturday night when he came from his work he changed his pantaloons, throwing the pair he took off under the bed. The missing money was in the pocket, and when he looked for it on Sabbath morning it had disappeared, as the prosecutor thinks, through the hands of the defendant. The latter was arrested, but the evidence against him being very slight he was let go on his own recognizance for a further hearing.

THE boat race on the upper Allegheny attracted quite a crowd yesterday.

In the case of Thomas Pancoast, indicted for aggravated assault and battery on Andrew Fife, Jr., a *nolle pros* was entered by leave of Court. A similar charge was made against Elisha Pancoast, in which case a *nolle pros* was also entered on payment of costs by defendant. These parties reside in Elizabeth township, and were charged with severely beating the prosecutor, a grandson of Thomas Pancoast.

HOME ENTERPRISE.

Pittsburgh Safes, Manufactured by Reiseck & Brother.

We have on more than one occasion in the past called the attention of the public to the propriety of patronizing home manufacturers in every branch of business, and in doing so have reverted to the fact that every year a large sum of money is taken from this city and expended in other places for safes when the purchaser might, if he would take the trouble to investigate for himself, procure an article manufactured in Pittsburgh, by Pittsburgh mechanics and with Pittsburgh capital, equally as well made, as well finished, as neat, durable and useful, and on as favorable terms as he can obtain it any place else. Knowing that iron and steel out of which Cincinnati and other safes are made is almost invariably manufactured here, we were at a loss to know how Cincinnati manufacturers could pay the freight on the iron from this city and on the safe from the place of manufacture back here and compete with our safe manufacturers, and for information inquired of a business man, when we were surprised to learn from him that it was not a matter of cost, nor of the strength or durability of the work that gave to Cincinnati the preference, but that it was on account of the finish, the Cincinnati work being more tastily finished than any manufactured in this city.

While we were not at the time prepared to dispute the assertion, we were by no means willing to admit it, and resolved to satisfy ourselves on the matter, and yesterday we visited the safe manufactory and machine shop of Messrs. Reiseck & Bro., at the corner of Pike and Seventeenth streets, for that purpose, and we are now prepared to flatly deny the assertion that safes cannot be or are not as well made and finely finished in Pittsburgh as at Reiseck & Bro., as at any other establishment in the county. We found in the finishing room a large number of safes, but two of which, however, were finished, one of which was for the Farmer's Deposit Company and we feel justified in saying that no manufactory ever turned out a better or more artistically finished safe, and we feel confident that if those desiring to purchase a safe will take the time and trouble to visit the establishment of Messrs. Reiseck & Bro., they will not only be convinced that their work is in every respect equal to that of any other manufactory east or west, but will be fully repaid for the time and trouble occasioned by the visit by what they will see there. We therefore urge upon all who contemplate purchasing a safe, vault, or anything of that description to call upon Messrs. Reiseck Brothers. They manufacture burglar and fire-proof safes, express boxes, &c., of all sizes, and fill orders on the shortest possible notice. The firm is also extensively engaged in the manufacture of machinery of every description.

Every business man can see the propriety of spending his money at home, and the old plea that safes were not well finished, which may have been true a few years since, cannot be admitted in future, at least not while Reiseck & Brother continue to turn out such work as they are now doing.

VERY ANXIOUS.

Youngsters Hymenially Inclined—Mayor Brush Refuses to Perform the Ceremony.

Yesterday afternoon, as Mayor Brush was preparing to take his afternoon nap in the private parlor attached to the office, a youth of twenty-one summers, as he claimed, and a blushing buxom lass of only nineteen presented themselves at the door, and modestly advanced to within speaking distance with his Honor. The male companion then addressed his Honor, remarking in brief that he had in contemplation an act of matrimony. He stated his age, and willingness to accept for better or worse his female companion, and, in imagination, he pictured himself sailing down the sea of married life with scarcely a ripple, much less a turbulent wave to mar his domestic felicity. But a cloud soon came o'er him like a dream. The young woman had not gained the consent of her parents, and the Mayor was inexorable. He was persuaded, entreated and begged to perform the ceremony, and the young lady in a plaintive appeal to his Honor, insisted upon his acquiescing in their demands. His Honor remained stolid, however, and would not yield an inch. He told the young man to go to the home of the young girl, about three and a half miles up Saw Mill Run, Lower St. Clair township, and get a note from the parents of their willingness to permit the union, and that then he would be happy to accommodate them. This the swain refused to do, and with heavy hearts they retraced their steps from the sanctum, still enjoying single blessedness. They announced their intention of hunting another shop, where "knots were tied," and it may be that ere this they have found one and ended their love sick tribulations. The Mayor refused the request for want of sufficient affidavit of defense.

National Commercial Convention.

The committee appointed by Councils to select ten delegates to represent Pittsburgh in the National Commercial Convention to be held at Baltimore on the 25th, was to have met at the Mayor's office yesterday, but only two members of the committee—Mr. S. Morrow and Major W. B. Negley—attended, and nothing could be done. Every other city of any importance has already chosen delegates to this Convention, but it seems that unless the gentlemen on the committee awaken from the lethargy into which they have apparently fallen, Pittsburgh will go unrepresented. Another effort to procure a meeting will be made to-day.

A Query.

The query of what becomes of all the pins, although it has never been satisfactorily answered, has been superseded by one still more difficult of explanation, and that is "what becomes of all the Arnold Writing Fluid imported by J. R. Weldin & Co., wholesale and retail booksellers and stationers, at No. 101 Wood street." In passing this establishment Saturday we noticed another cask of that popular article, which had just arrived, which makes the third invoice received by this popular establishment during the present season, and on making inquiry concerning the matter, yesterday, we were informed that the greater portion of it had been sold, but where it went, or what was done with it, no one can tell. It is the most popular ink now in use.

A Savage Case.

Mrs. Margaret Savage, yesterday, preferred a charge against her husband Robert Savage, before Alderman Butler. The complaint of the prosecutrix is that Robert earns good wages but instead of applying the result of his labors to the maintenance of his wife and family, he gets drunk and makes matters about the house entirely too lively. The parties reside in the Third ward, Allegheny. A warrant for the arrest of the accused has been issued.

K. L. WALLOCKER deposed to an information yesterday, charging Ann Crow, *alias* Maderias, with surety of the peace. The defendant indulged in the expression "that she would take it out of her," and this seemed to form the foundation for the suit. Alderman McMasters has issued a warrant.

MESSRS. GRAY & MCFADEN the Health officers, with their assistants, form an excellent working corps, and with the co-operation of those gentlemen of the Board of Health who have in hand the sanitary interests of the city, are accomplishing a deal of good in eradicating the small-pox.

OFFICER Peter Dressler has returned from Cincinnati, whither he had gone in search of Hazlett and Small, the alleged jewelry robber fugitives. They were there when the officer arrived at Cincinnati, but got wind of his presence and succeeded in eluding arrest.

OFFICER DRESSLER informs us that on Friday last a young man presented himself at a bank in Cincinnati with a check for $28, which he altered to $2,800 and drew therefrom the latter amount. A similar game was practised in this city not many years ago. Bank clerks cannot be too careful.

GEN. GRANT and his family left Washington, Pa., for the West yesterday morning. A large concourse of people was at the depot and, as the train moved off, he was loudly cheered. He will return to the Federal Capital about the last of the month. It is understood that he will stop in Pittsburgh a day on his return.

THE conduct of Comptroller CONNOLLY appears to have greatly attached him to his friends; that is, since his rascalities have been proven they like him all the better, and propose to get up a "monster meeting" in his behalf. No doubt they will succeed. The Pittsburgh *Post* has not yet had the courage to say a word that might not be spoken of the purest man in the land.

THE redemption of California from Democratic rule is in considerable part due to the patriotism and intelligence of its colored voters, fifteen hundred of whom, by their support of the Republican candidates, contributed to the decisiveness of the victory. In the State of Pennsylvania there are from ten thousand to twelve thousand colored voters, who not only owe their enfranchisement solely to the Republican party, but who, in all probability, will be deprived of that inestimable right whenever Democracy shall find itself firmly seated in power. The investment which the Republicans of California made in humanity and justice brought them their reward. We hope no legal voter of African descent in Pennsylvania will fail at the ensuing election to compare the claims of the two parties upon his suffrage, and to vote as his sense of manhood and gratitude shall dictate.

IT is astonishing what a deep and zealous interest the *Post* has suddenly exhibited in the ticket put in nomination by the so-called "Temperance Convention" at Harrisburg. The fact that county nominations have been made "in some twelve counties" affords it the liveliest satisfaction, and it pats the impracticables on the back as lovingly as if it had known no other beverage than cold water from the time it was weaned. All this kindness of course arises from the sincere interest which our contemporary feels in the temperance cause, and not from any desire to forward the chances of its own party by weakening the Republican vote. What a strategist it is, and what a prodigy of morality. It is a good thing to have a Temperance ticket in the field, is it not neighbor, when it is unconsciously a decoy duck of Democracy? How do the Temperance candidates feel under the praise of the *Post?* And how does it explain itself the Germans, whom it has taken so kindly under its protection?

THE *Dispatch* is worried about the COMMERCIAL with reference to the Mayor's salary. The reputation of that paper for a[illegible] honest concern for economy and Reform forbids the slightest suspicion as to its present motives. Therefore we will not hint at the bare possibility of the existence of any that are not of the most laudable description. *But we distinctly remember that in the past*, when the COMMERCIAL demanded the abolition of all fees and the substitution of fixed salaries for all offices, there has been no such zealous or constant opponent to this description of Reform as the *Dispatch*. Bless your heart, neighbor, this is the COMMERCIAL's hobby, as you have derisively said more than a thousand times; and at the very least it is bad taste for you to take on airs in your new born zeal or decry those who in their efforts for Economy and Reform have found in you nothing but an enemy.

NOTWITHSTANDING it has been stated over and over again that the act to authorize a popular vote upon the question of calling a convention to amend the Constitution of Pennsylvania, provides that the question shall be submitted to the people at the coming general election, we still find persons who are under the impression that the vote is not to be taken until the second Tuesday of October, 1872. The State conventions of both political parties have indorsed this act and declared in favor of a Constitutional Convention, and there are no grounds for misapprehension as to the time when the vote is to be taken. The act was approved June 2d, 1871, and requires the sheriffs of the several counties to give notice thereof "in their election proclamation *the present year*," and also prescribes the manner in which the ballots shall be prepared. Sheriff Fleming, in his proclamation, has recited this act in full, and tickets will be prepared in accordance therewith by the Republican County Executive Committee. The act will be found on page two hundred and seventy-two of the pamphlet laws, and also on page seventy-four of the general laws of last session.

THERE seems to be a possibility that the determination of HALL, TWEED and SWEENY to sacrifice CONNOLLY for the purpose of saving themselves may recoil on their own heads. That "Slippery Dick" does not feel the slightest disposition to accept the position of scape-goat to his fellow scoundrels is quite evident from the fact that he has yielded to the advice of ex-Mayor HAVEMEYER, and appointed Mr. ANDREW H. GREEN to the office of Deputy Controller, with power to perform every duty belonging to the office of Controller, until the first of February, 1872. Whatever doubts may be entertained as to the motives by which CONNOLLY was actuated in making this appointment, its effects will unquestionably be to show that the trio confederated for his overthrow are every whit as guilty as himself. Mr. GREEN is a Democrat, but inflexibly conscientious, and will doubtless take such prompt and thorough action as shall effectually checkmate the scheme of the triumvirate to exonerate themselves by doctoring the official papers. When CONNOLLY goes down he means that the rest of the gang shall go down with him; a determination which is probably the most praiseworthy purpose of his life. Mayor HALL's removal of CONNOLLY and appointment of Gen. McCLELLAN may possibly complicate matters, but it is evident that affairs have assumed a complexion as altogether unexpected as unwelcome to the flippant jester who a month ago was so confident that "the storm would soon blow over." Present appearances would seem to indicate that it blows in the direction of Sing Sing; at least the infamous fabric of Tammany totters to its fall.

THE *Post* is certainly hard pushed. In the absence of any valid argument against Republican doctrine or practice it resorts to the weapons of slander, and deliberately utters words which it knows to be untrue. In its issue of Saturday it revives the stale and oft refuted calumny of the theft of twenty millions of dollars by ex-Collectors of Internal revenue, and adds—"Not one of those defaulters has been prosecuted or called to account," leaving it to be inferred that the Government has been loser to the amount of twenty millions of dollars by the dishonesty of these officials. The emphatic declaration that though one should "bray a fool in a mortar, yet will not his foolishness depart from him," applies, we take it, with equal pertinency to a falsifier. At least the *Post* cannot plead ignorance of the actual facts in the case which it thus wilfully and with intent to deceive, distorts. It has again and again been shown that Secretary BOUTWELL did not, on the 18th of February or at any other period, officially or in any other manner state to Congress that this amount had been "stolen." What he did was simply to furnish Congress with a statement of the unadjusted balances against the Collectors of Internal Revenue, as they appeared on the books of the Department on the 30th of June, 1870. The *Post* well knows that the cash balances due from defaulting Collectors of Internal Revenue on the 15th of last month, to which date the last report of the First Comptroller of the Treasury was made up, amounted to $2,750,126, or eighteen millions of dollars less than it charges, for we have twice before compelled it to sneak for shelter behind Mr. BOUTWELL, and to whimper that it was not itself, but the Secretary who was to blame. The *Post* has been compelled to take back its own words with reference to one of the alleged Pennsylvania "defaulters." The *Post* wilfully suppresses the fact that of the seventy-nine actual defaulters, forty, whose aggregate defalcation amounted to $1,759,427, were appointed by President JOHNSON, while the defalcation of the thirty-six appointed by LINCOLN reached only $930,000, and of those appointed by GRANT, $64,581, or less than one-fortieth of the whole. But perhaps we ought not to expect that a journal which can see in the vast iniquities of Tammany nothing to denounce, should not be able to come any nearer to the truth than the relation which $2,750,126 bears to $20,700,782. And this is Democratic fairness and veracity.

THE "WAR CLOUD."

Journals the most cautious and least inclined to play the part of alarmists, profess just now to see a war cloud hanging over Europe. The announcement is naturally surprising to those who regarded the late conference of the two emperors, WILLIAM and JOSEPH, and of their chancellors, BISMARCK and BEUST, as direct efforts to maintain the peace of Europe; efforts that were hailed by leading German politicians as completely successful in the establishment of an alliance sufficiently powerful to render the desired object certain. Though it is still hoped, even confidently believed by very intelligent observers that this expectation was no illusion, there can be no doubt about the danger of disappointment. The war party in France which apparently grows daily stronger fully reckons on a Russian alliance for aid in the speedy accomplishment of revenge for defeat and dismemberment, while the Russians are greatly alarmed and excited in anticipation of the humiliation with which they are threatened by the reported treaty between Germany and Austria. For a hundred and fifty years, the dream of PETER THE GREAT, the Union of all Slaves under the Russian crown, has been the cherished idea of the Czars. In fact, the policy long ago became a fanaticism not only with the successive Emperors but with many of their people, or at least with the portion of them who are, or think themselves members of the nationality whose union is desired. By the lately effected treaty or understanding between Germany and Austria, Russian Pan-Slavism has been brought into immediate collision with Pan-Germanism, and placed in a position which threatens the long cherished scheme with utter and ignominious defeat. Ever since the German victories of 1866, the eight millions of German subjects of Austria have been dissatisfied with their political position, and desirous of union with Germany; a destiny which certainly awaits them as the consummation of German unity. The Austrian Government, weakened by their discontent, and apparently anticipating their ultimate absorption by Germany, has paid assiduous court to its Slavic subjects and relied upon them, along with the Magyars, as the mainstay of its power. Now, it is alleged and believed that one provision of the recent arrangement entered into at Gastein is the not distant incorporation of the Austrian Germans with the German Empire, in return for which concession Austria is to enjoy all needful facilities and countenance in extending her empire to the mouth of the Danube. In other words, the arrangement contemplates the eventual establishment of a powerful Slavic em[illegible], bounded on the north by old Prussia, on the east by the Dwina and the Dnieper and on the south by the Black Sea. Without assuming the *truth* of what is also alleged *that Austria recognizes the right of Germany* to the Baltic provinces of Russia, there is enough in the understanding just detailed to justify the indignation of the Czar and his subjects. Let the plan be realized, or even quietly recognized, and Russia may as well at once renounce all interest in the Eastern question. It is settled without consultation with her or any reference to her wishes. Germany is the arbiter of Europe. The politicians are generally sure that the Czar will not submit to the adjustment and will certainly go to war, aided or not aided by France.

A GAME THAT WON'T WORK

The Democrats are expecting to catch the Republicans of the First and Second Assembly Districts napping and elect Messrs. IRVIN and LIDDELL over Messrs. FRAZER and EDWARDS. Their game is to solicit votes out of compliment, only wishing, as they say, as those districts are strongly Republican, to show that the Democratic candidates stand well among their neighbors. This game is being played industriously by the candidates and their friends, who begin to boast that they expect to win by it. Such a result would be discreditable to the Republicans of those districts. If Republicans have been induced to promise complimentary votes they will be justified in not so doing, and Democrats attempting the game hereafter should be given to understand that they are understood. The Republicans of those districts, now that they understand the matter, should wake up in earnest, show their full strength and properly resent this attempt to perpetrate a trick on them. A full Republican vote is all that is necessary, and this let us have.

THE utter improbability that the Democratic party will at their ensuing National Convention take manly and honest ground in favor of negro citizenship and negro suffrage, has all along been apparent to our own mind. It is true that a few papers, among them notably the Louisville *Courier-Journal*, professed to believe in the thorough sincerity of the new departure, which it has advocated through thick and thin. But even this Triton among the minnows has grown tired of its fruitless labors, and begins to hedge. It says:

> "We mean to support the Democratic nominee next year, departure or no departure, and consequently we do not, like the Bourbons, denounce in advance a thing as infamous which we may have to support. We denounce nothing advocated by Democrats as infamous."

It will be curious if, after all the incontrovertible things which the *Courier-Journal* has said respecting the rights of the negro, and all its declarations that the genuine Democracy of the country recognized the amendments as accomplished facts, and regarded them no longer as political issues, it shall find itself compelled by the platform to denounce them as "unconstitutional, revolutionary, null and void." It seems quite probable that the indignation and disgust of the Bourbons, North and South, at the false position into which the party has been betrayed by the new departure, will compel its managers to make public recantation of the heresy; in which event we hope the *Courier-Journal* will acquaint us with the character of its feelings while it indorses the sybilline utterances of ALECK STEPHENS, and lauds the far-sighted sagacity of "the twenty-five Pennsylvania Bourbons" over whose recent protest against the "new departure" it at present gnashes its teeth. It is a good thing to be brilliant, is it not—when one is also wise?

FATHER HYACINTHE seems to have almost or quite as great a foible for writing letters as General TROCHU. One can, however, easily believe that under such provocations as he receives it would be very difficult for him to hold his peace. For example, the Reverend Father ADOLPHE PERRAUD, a short time ago, preaching a funeral sermon in honor of Mgr. DARBOY, the late Archbishop of Paris, took occasion to refer to Father HYACINTHE by name in a manner the most irritating. He represented HYACINTHE as DARBOY's Absalom, the ungrateful and rebellious son in the faith, who caused him intolerable grief and called forth from him bitter complaints and reproaches. Father PERRAUD, preaching in *Notre Dame*, where HYACINTHE used to preach with such effect, even summoned the rebellious monk by name to behold the vacancy in the ranks of the clergy caused by the massacre of the "hostages" and to return to his allegiance and help to fill the gap. In a long letter HYACINTHE denies flatly the statement of his relations to the late Archbishop, and claims that, while not approving his course, DARBOY fully understood and respected his motives.

From Father HYACINTHE's letter it appears that the Church of France, the famous Gallican Church, abjectly accepts the dogma of infallibility. Thus, the chapter of Paris, "on the very coffin of the late Archbishop who so earnestly opposed the proclamation of the dogma," informs the Pope that they regard the action of the Council as "a peculiar favor of Providence and as a measure opportune and answering to the needs of the time." Yet many of these very men were vehement and persistent opponents of the measure before its adoption. By such glaring inconsistencies Father HYACINTHE is reminded of a sentence in a letter addressed to him by Count MONTALEMBERT shortly before his death: "The self-styled liberal Catholics of France are in my eyes, as in yours, prevaricators." In conclusion, the writer calls on Father PERRAUD "to let alone the poor person of his correspondent, which is nothing in so great a debate, and let us open our eyes to the disasters of our unhappy country, invaded and ruined by the Ultramontanes, as it has been by the Prussians, subdued ecclesiastically by the Court of Rome as it has been debased politically by the Court of Berlin."

Indeed, the sudden change of opinion on the part of so many priestly opponents of the infallibility dogma, is one of the most singular phenomena of the time. It has been seen not only in France, but in Germany. The Bishop of Munich who excommunicated DOELLINGER and his friends, the Bishop of Ermeland who excommunicated Professor WOLF, and in fact the most conspicuous champions of the new dogma and the most malignant persecutors of the old Catholics everywhere, are men who fought valiantly against the absurd decree while it was merely a proposition and still under consideration. No doubt, they are expected to give satisfactory evidence of repentance.

GENERAL AND PARTICULAR.

Following the example of the Imperial decree of the German Emperor to suppress the gambling dens of Homburg after the present year, the Spanish Minister of the Interior has now issued orders from Madrid to all the Inspectors of Police throughout the country, instructing them to thoroughly suppress all gambling houses, and a special notice with additional restrictions was furnished to the chiefs of the departments in the capital. Many of these officials did not suppress the gambling houses, so he has retaliated by dismissing them from their positions.

It is stated that a well has been opened in Rockport county, Indiana, from the water of which a good article of soap is manufactured. A local paper says the well is about twelve feet deep, and produces twelve barrels of water per day, but can be made to produce over one thousand barrels daily. The water contains soda-ash, saltpetre, and a number of other ingredients, has a taste like that of lye, and, when boiled down, makes a splendid article of soap for family use.

A Zanesville, Ohio, paper narrates a strange but charming story of the effects of music. A young lady, living about four miles from that city, is in the habit of performing on the violin a beautiful air—a religious song—and her brother playing the accompaniment on the flageolet. It has been noticed for some time when this air is played that a beautiful bird, known as the golden winged warbler, comes and hovers on the wing; only comes when the piece is being played, and is not seen at any other time. When any one desires to see the bird the lady plays this air on the violin, but it never comes in response to any other song, and only when the young lady plays.

A large delegation of northern men, principally from Pennsylvania, arrived in Richmond last week. Their object is said to be the purchase of land in Virginia.

The drought in Virginia has ended. The fall of rain last week was not only great but steady, and while it revived vegetation, and put the soil in condition for ploughing, it excited the fears of the people that they might have a repetition of the freshet of last fall.

Detroit has turned out a successful street-car dummy. The car is so arranged that the engine consumes its own smoke and steam, and moves along the street like a thing of life, noiselessly and smoothly. The cost of running it is four-fifths less than by horse-power. One dollar per day will keep it in fuel, and two men can run it. It is so arranged that the engine only occupies surplus room under the floor of the car, it being somewhat higher than ordinary cars.

Gun cotton is not soluble in alcohol, but with the addition of a little camphor it dissolves instantaneously. A beautiful artificial ivory is prepared by powdering gun cotton with camphor, and placing it under hydraulic pressure, covering it afterward with a mixture of gun cotton and castor oil; by this process billiard balls have been produced, which have been declared by connoisseurs to be superior to those of real ivory.

Beverly, Massachusetts, is known as "Bean Town." No virtuous citizen of that place thinks of passing Sunday morning without baked pork and beans for breakfast. Formerly they went to the different bakeries Sunday night, each man with his bean pot. Each pot was numbered with a check as received, and the number given to the owner, and crowds would gather round the bakery door Sunday morning, each man calling his number and receiving his pot. But now they have a pottery in the town, and each householder has his bean pot made to order, with his names or initials baked into the sides, and the plan works beautifully. The bakers charge six cents for baking beans, and it is a valued source of revenue.

Springfield, Missouri, has an extraordinary case of hydrocephalus, or congenital dropsy of the brain. The subject is a boy, ten years old, the proportion of his body being about equal to a child of two years, while his head measures twenty-eight and a quarter inches in circumference. The average head of man is from twenty to twenty-one and a half inches. The boy, though without the power of locomotion, has perfect possession of his faculties.

Persons engaged in the cultivation of the ramie in Louisiana are said to be constantly receiving letters from the North and Europe, asking about its culture, the price at which it can be sold, and the supply that can be depended upon. Some manufacturers say that ramie is superior to flax, and if there were a certain supply it would supersede that fibre; while others say that in four hours they can convert the ramie into a flossy silk, worth three to four dollars per pound. No certain calculations can be made, from the fact that there is but little capital in the hands of the planters, and it is hard to force them out of the old habit of planting cotton and sugar. The soil of Louisiana is rich enough, and there is sufficient unoccupied land to produce the article in any desired quantity; but capital for its cultivation is needed, and must come from the North.

In Indianapolis a few days since a German shoemaker administered to a sick child about half a teaspoonful of soothing syrup. This not effecting his object, to quiet the baby, a teaspoonful was given, and then another. The last did the work, but too effectually. The narcotic in the drug put the child into a sleep from which it never awakened.

PERSONAL.

Hon. Jacob Tome, the Republican nominee for Governor of Maryland, is a native of York county, Pennsylvania, and forty years since went a poor boy to the town of Port Deposit, in which he has ever since resided. By native talent and industry he has become the wealthiest man in the State outside of the city of Baltimore. He is President of two banks, half a dozen steamboat and manufacturing companies, and has built two churches and a school house in Port Deposit with his own money.

General Hawley, it is said, has prepared a lecture entitled "The Gentleman in Politics," which he is going to deliver before a Boston audience some time next October. It is said to have been inspired by the billingsgate of Democratic politicians, and is to be terribly severe upon the use of such language as "liar" and "blackguard."

Mr. De Long, the American minister at Yokohama, Japan, is full of Yankee grit. He recently compelled the British charge d'affaires at Yokohama to apologize to him for insulting remarks about Americans, and made the British editor of the *Japan Mail* publish an apology for a similar offense.

Referring to his remark that "New England only gave three good men to the Revolution—Benjamin Franklin, Samuel Adams and Nathaniel Greene, of Rhode Island," the Boston *Traveller* says: "If Mr. Wendell Phillips is to assign rank for Revolutionary services, history will be upset. We doubt if he is right in saying that New England gave Franklin to Pennsylvania. That great man left New England before he was eighteen years old, and never returned to it except in his youth as a resident. Pennsylvania seems to be entitled to the credit of having given him to the Revolution, as she gave him a home, and then a grave, and then a monument."

Prince Humbert's travels through Spain are thus described: The heir to the Italian throne travels in strict incognito. When the train reached Villalba the persons who expected him, among whom was his brother, naturally approached the first class carriages; but what was their surprise to see a young man in a striped shirt, looking more like a stoker than a prince, jump lightly from the locomotive, make his way through the group and throw himself into the arms of King Amadeus. Needless to say, it was Prince Humbert, who had been performing the duties of a machinist. These little anecdotes of princes are so refreshing to the American mind!

It is stated on authority that the members of the broken Tammany Ring are secretly trying to hide their stealings. Ingersoll, the contractor, drew his account, $75,000, from one bank Saturday, and from other banks large sums, and converted the money into United States securities. Tweed, although he maintains a bold outward appearance, is sorely tried, in view of the probable order for restitution. Said a knowing one on Saturday night: "Those vouchers, which were said to have been stolen from Comptroller Connolly's office, I do not believe ever left the new court house, but were burned in the building and the pane of glass broken as a blind."

REFERRING to the cause of Prof. Mahan's suicide, an account says: At the close of the June examination Prof. Mahan was anticipating the benefit of his usual relaxation during the summer, when he was made uneasy by various reports that he was to be placed on the retired list and disconnected from the Academy, and learning that the Board of Visitors had recommended this retirement he felt that his life-long reputation was assailed. Brooding continually over this, he failed to receive any benefit from his relief from duty, and having left home to procure the advice of a physician, in a moment of frenzy he leaped into the Hudson river.

St. Louis as a Port of Entry.

The statement of the amount of import duties collected in western cities during 1870 places St. Louis far in advance of her rival, Chicago. The figures are:

St. Louis	$2,129,840
Chicago	828,952
Cincinnati	460,998
Detroit	273,669
Louisville	137,292
Memphis	110,656
Milwaukee	180,671

It is claimed, for St. Louis, that the figures to her credit would have been at least a quarter of a million greater but for the action of certain river lines and of customs officials in compelling merchants to pay duty in New Orleans. The increase of import duties paid in St. Louis since 1865 is very marked, having been but $654,000 in that year, and the prospect for a still greater increase is quite flattering. It is announced that the first shipment of foreign goods, under the law of 1870, making St. Louis a port of entry, arrived there on Wednesday of last week, having been brought from New York in a bonded car of the Merchants Dispatch Transportation Company, the first line to bond under the new law. The purchase consisted of ninety-four cases of choice jellies and provisions, which were ordered direct from Glasgow, Scotland. The boxes left Glasgow August 18, per steamer India, which reached New York September 4. They were unladen on the 7th, and on that day placed in the bonded car and started for their final destination. In this manner they escaped the proverbial delays and onerous charges of former days and systems. From Glasgow to St. Louis required twenty-six days. The cost of freightage from Glasgow to St. Louis, a distance of 4,200 miles, was only 72 cents per 100 pounds—being about three-eighths of a cent per ton per mile.

American Officers in Egypt.

If it be really true, as reported by telegraph, that the Khedive has dismissed all American officers from the service of Egypt, in response to the demands of the Sultan, said officers have experienced no little disappointment. Letters which have been received from one of them, from time to time here, have represented all of them as having a "sweet thing" of it, to use a slang phrase. They have been receiving very large wages, have lived like nabobs, and been treated in the most royal manner. One of them, Colonel L——, who went from this city, to take the position of lieutenant, spoke several languages. This coming to the attention of the Khedive, he took him into his own household, and promoted him from one position to another until he became his chief of staff and right hand man generally a few weeks ago.

THE Boston *Advertiser* does not disguise that, as the result of Butler's course, Massachusetts may be lost to the Republicans. Of his antics that paper says: "The policy of Mr. Butler is to create an impression that the fight is already won; and his swashing and martial air, as he rides up and down the State, challenging everybody, and meeting no one who will stand and fight on his own ground, gives some color to his pretension. But he is fighting for himself alone. He has been a more successful guerilla thus far than Mr. Philips, because he has vastly more at stake than Mr. Philips had, and aims at a higher prize, and because he has no scruples as to choice of his instruments."

THE National Capital removal project, it seems, has not been abandoned, but is likely to be revived with renewed energy. The St. Louis *Democrat* says the westward transfer of the Capital is the first object to be sought, and for this the West must combine. When this is won, the choice of the site will be in order, and no other course can effect the object. A meeting will be held in St. Louis next Saturday evening, at which the matter will be discussed from such stand-point.

THUS far Sweeny of the Tammany ring appears not to have been saddled with specific rascalities, but we predict that when the whole truth comes out he will stand forth the greater scoundrel—the Fagan of the gang. He has more wit than the rest, but not a whit more conscience.

Over-Doctored.

Without any disrespect to the members of the medical profession, a profession honored by all thinking men, it is only just to say that they are too thick on the ground. The consequence is that the community is doctored over-much. When nature needs only the gentle stimulant and alterative, which has become famous throughout the country as a reliable medicine, under the name of Hostetter's Stomach Bitters, she is not unfrequently dosed with a dozen prescriptions, all experimental, from the Pharmacopoeia. This is an evil, and proves that the practice of medicine is far from being at all times a healing art. At this period of the year, when the fall of the leaf indicates that decay has seized upon the vegetable kingdom, many harassing diseases are prevalent. Chief among these may be mentioned intermittent fever and bilious remittent. The exhalations rising from decomposing vegetation, and the heavy dews and fogs, are very apt to generate these complaints. The wisest policy is to protect the system by a course of Hostetter's Stomach Bitters at the commencement of the fall. Much suffering may thereby be avoided. But if the disease has already begun, its periodical visitations may readily be checked and broken up by this active, yet harmless, vegetable tonic.

But be on your guard against the charlatans who are attempting to palm off, under various names, unwholesome compounds, which they pretend to compare favorably with the great national elixir, which has long since swept more formidable opposition from the field. Bear in mind that every bottle of genuine Hostetter's Stomach Bitters is authenticated by a splendidly engraved label, and a fac simile of the sign manual of the firm. Put up in bottles only, and cannot be obtained in bulk.

CONVERSION

U. S. Five-Twenty BONDS.

Holders of Five-Twenties of the issue of 1862, which under the recent announcement of the Secretary of the Treasury will be paid off in December next, have special and immediate reason to consider the question of conversion, unless they wish to receive coin for their Five-Twenties, or exchange them at par for bonds of the new issue, bearing an average rate of 4½ per cent.

We invite the attention of investors to RELIABLE HOME SECURITIES, which we are offering for sale, paying from SEVEN to EIGHT PER CENT. interest.

FINANCE AND TRADE

MONDAY EVENING, September 18, 1871.

The week opens upon an easy local money market. The supply of loanable means on an average shows an increase, and the banks are able and ready to extend ample accommodations in the shape of discounts to all good applicants.

The last weekly statement of the New York City banks excites a good deal of comment, and apprehensions are felt of another "lock-up" by the maneuvering of the bear party in stocks. The *Sunday Herald*, in its financial column, says: The exhibit is of a character calculated to excite alarm and is undeniably "bad," to quote the monosyllabic opinion of it prevailing throughout the street. The frantic effort of Mr. Boutwell to help the "bear" Syndicate in gold by selling four millions of government treasure has failed to increase their specie balance, for the reason that the entire amount went back into the Treasury for customs. A loss of half a million more was occasioned by the specie shipments to Europe. The gold of the Treasury was paid for in large part with greenbacks, which, with the movement of currency to the interior, is reflected in a decrease of over three and a half millions in legal tenders. Despite the greatly impaired powers of the banks they have seen fit to enlarge their loans to the enormous total of $312,600,000—an increase for the week of about one and a half million dollars. The decrease in deposits is about two millions, or just the difference between the total loss in reserve and the fresh loans of the week—a fact which strongly implies that the banks had to come to the help of some of their customers and extend accommodation, in order to prevent embarrassment. The circulation is also down not far from a million of dollars, which means either that the banks have been hoarding their own notes as a first protection against a demand for greenbacks, or that the country banks, anxious to fortify their own reserve, have sent these notes home by express for redemption in legal tenders. It is possible, too, that some of the banks have sold a portion of their capital to new banks, West or South. An analysis of the statement shows that the total loss in legal reserve has been $3,658,400, against a reduction in liabilities of $3,036,400. The loss in surplus reserve is, therefore, $2,899,300. In other words, with liabilities amounting to $276,186,400, the banks hold only $5,063,500 in excess of the twenty-five per cent required by law. They have not been so poor in a long time.

—Government bonds were a little firmer and higher, although they did not fully sympathise with the sharp advance in the gold premium.

Messrs. Ira B. McVay & Co. report the following quotations of Government bonds in New York to-day, as furnished them by Jay Cooke & Co., their correspondents:

	Morn.	Noon.	Close.

ALLEGHENY LIVE STOCK MARKET

OFFICE OF THE PITTSBURGH COMMERCIAL,
MONDAY, September 18, 1871.

Cattle.

The arrivals by the different railroads centering at the Union Yards were fourteen cars, or about two hundred and fifty head. In addition to these there were about as many more driven in from the surrounding country, making all in the neighborhood of five hundred on sale this morning. Like last week, the supply on sale was small considering the season of the year and number required to meet the demand, and in quality were mostly medium. The market opened up slow and continued so until about eight o'clock, at which time the butchers commenced to buy. They looked around, and becoming aware that the supply was limited, saw at once that nothing was to be gained by holding back, and notwithstanding the drovers held cattle firm at prices fully ¼c higher than last week, all were bought and the market over at eleven o'clock. Next Monday is a Jewish holiday, and as a great many of the drivers will not be in the market a good many butchers purchased two weeks cattle. This also helped to make the market brisk, as the supply was hardly sufficient for one week. On the whole, the market was the best drovers have had for some time, and prices realized were from ¼ to ½ higher than those ruling two weeks ago. The following are the current grades for the different grades of cattle. Extra, 1,200 to 1,500 lb steers, 6¾c ℔ lb; prime, 1,200 lb 5¾c to 6c; good, 1,000 to 1,100 lb $5 50 to $5 60; fair butcher stock $5 to $5¼; roughs, grassers, &c., $4 75; cows $4 25 to $4 50; bulls $2 to $2 50.

New York Coffee Market.

September 16.—Holders of Brazil remain very firm in their views, deeming the situation a strong one, offering their gradually reducing stocks sparingly—indeed a large portion of it cannot be said to be offered at all, a still higher range of prices being confidently looked for, as it is believed the Rio market will advance corresponding somewhat to the improvement here, as our enhanced valuations reach there. There is a fair demand for home use, though with a less active distributive inquiry this week. Dealers purchase cautiously and only as their immediate wants demand. There is in consequence a quiet feeling, but prices are supported. We notice 1,000 bags Rio per Halley, 553 per Electra, 1,452 per Denan for Europe, 1,322 per Cassius, 5,600 per Mina, to arrive via Hampton Roads, and at Baltimore 800 ℔ Kate, and 400 ℔ sundry vessels, all on terms not made public. Our market for other descriptions though generally quiet, is quite firm, with a fair demand for home use, and moderate offerings on the part of holders. The sales are 821 mats Java per President Von Ryckevorsel, 4,532 do in lots per Cyclone, 225 bags Manila, 424 Ceylon, 614 Malabar, 274 Mexican, 177 Costa Rica, and 42 Savanilla, with in our range. For sales of Rio at "Boston" in our last, read Baltimore.

Boats Departing This Day.

Brownsville and Geneva morning boat 8 A. M., evening 5 P. M.

Geneva .... West Virginia P. Donaldson, 3 P. M.

THE marks last evening indicated about eighteen inches. Navigation between the wharf boat and Lock No. 1 is becoming difficult.

DOWN AND UP.—The Rapidan No. 2 was sunk and raised in the Tennessee, the other day. No freight damaged, and the boat not much.

THE City of Quincy passed Memphis, *en route* to New Orleans, nine days out. She was heavily laden and towing a barge.

THE fine steamer Messenger is offered for sale at a bargain. She is in first rate condition. For further particulars inquire of Captain Wm. Dean.

THE light draught packet West Virginia, Capt. P. Donaldson, takes her departure this day at 3 P. M. for Brownsville and Geneva, and shippers will bear this in mind.

STEAMER ACTIVE SOLD.—The Kanawha and Gallipolis Packet Company sold the steamer Active to the Gallipolis and Parkersburg mail contractors for five thousand dollars.

BY reference to our advertising columns it will be perceived that the steamer Lorena is offered for sale by Captains S. Shuman and James Rees, Esqs. The Lorena is a good boat and can be obtained at a bargain.

THE United States mail packets on the slack water leave daily at eight A. M. and five P. M. These boats have superior accommodations, and are in charge of careful and attentive officers. For further information call on Captain A. S. Carlisle, on the wharfboat, at the foot of Ross street.

OFFICIAL SURVEY OF THE OHIO RIVER FROM PITTSBURGH TO CAIRO.—At the request of our river friends we have published a third edition of this important table, with various improvements. It can be obtained at the COMMERCIAL office at ten cents per copy, or three copies for twenty-five cents.

ST. LOUIS.—Sam Smith, mate of the Viola Belle, lately made the voyage from the wreck of that boat, in the Missouri, to this city, in the boat's yawl, bringing a lot of the cabin outfit, consigned to the underwriters. He had four men, and made the run of 500 miles in this open boat in five days.

THE steamer Carrie Converse has been doing some tall running on low water; listen: The Converse left New Orleans on Saturday, September 2d, made the trip to Shreveport in four days and fifteen hours, and her time back to New Orleans was three days and fourteen hours, making a total on the round trip of eight days and five hours. "How is that for high on low water."

SMITH'S CHAIN.—A gentleman who yesterday visited the scene of the work now being done in the river at this point by Messrs. Dull & Williams, the contractors, says they are getting along finely, and have already got out some of the greatest obstructions to the travel of boats that were in the channel. The low stage of the water is very favorable to the work.—*Davenport Gazette, 13th.*

WHAT TO THEY PROPOSE TO DO ABOUT IT.—The New Orleans *Times*, in a long and carefully written editorial, says "the Bend trade (from Vicksburg to the mouth of Arkansas river,) is being rapidly diverted to St. Louis," and asks that something be done at once to retain a portion of it for New Orleans. The City of Quincy passed Memphis, nine days from St. Louis, towing a barge, and heavily laden.

THE Shreveport *Southwestern* has the following in regard to the iron steamer John T. Moore and the Carter line of boats: On Sunday morning, the twenty-sixth day of February, 1871, the magnificent iron steamer John T. Moore landed at our wharf, being built entirely of iron, and expressly for this trade, at an expense of $80,000. She has been a universal favorite. She remained in our trade, making regular weekly trips varying but few hours during the whole time, and making the fastest time on record for a stern-wheel boat, between New Orleans and this point, until the 22d of June, when the water became too low for her. The Carter line added during the year, two new boats to the St. Louis and Shreveport trade, and have eight boats employed, seven of which have made pretty regular twenty-day trips. The Belle Rowland, during low water, is doing good service as a tender to the line at this point. The success of this line is without a parallel, beginning with one poor boat two years ago. Their return trips are made up of cotton for eastern and western markets, for which they sign bills of lading through to New York at $1 per hundred. Beef, hides, tallow, etc., freights for the east are sent by rail from Memphis, Cairo and St. Louis. They have taken about 5,000 head of cattle to the Memphis and Vicksburg pens, and have usually been favored with very fair passenger lists. About 3,000 bales of cotton have been shipped by this line.

FOR the TOILET.

Notwithstanding the fact that mixtures of every description purporting to be peculiarly adapted to the Hair, are to be found in almost every Drug Store and Grocery in the country, the want of an agreeable, cleanly, and healthful dressing for the Hair is evident. Nearly all the preparations in use are made from animal oils, as a consequence they display a common feature, [illegible] dry rapidly, are more or less gummy, and in time become rancid to offensiveness. This is especially true of [illegible] "Pomades" and "Washes" under fancy names, made from the rankest and filthiest of all the Animal Oils. Experience proves that Vegetable Oils are every requirement for the Hair, ture for a greater than Animal Oils, jurious, and when produce beneficial results. THE FLORAL OIL, prepared by Messrs. ABEL & CO., from Pure Vegetable Oil, possesses these properties in an eminent degree. It is at once one of the cheapest, most cleanly, healthful, and agreeable preparations, perfumed with rare odors, ever presented to the public. It will be found especially agreeable as an aid in dressing the hair of Children and Ladies. Promotes the growth of the Hair and imparts to it a rich lustre. No Toilet complete without it.

Hoofland's German Bitters,

A Bitters WITHOUT ALCOHOL OR SPIRITS of any kind, is Different from all others. It is composed of the pure juices, or VITAL PRINCIPLE OF ROOTS, HERBS and BARKS, (or, as medically termed, Extracts), the worthless or inert portions of the ingredients not being used. Therefore, in one Bottle of this Bitters there is contained as much medical virtue as will be found in several gallons of ordinary mixtures. The Roots, &c., used in this Bitters are grown in Germany, their vital principles extracted in that country by a scientific Chemist, and forwarded to the manufactory in this city, where they are compounded and bottled. Containing no spirituous ingredients, this Bitters is free from the objections urged against all others; no desire for stimulants can be induced from their use; they cannot make drunkards, and cannot, under any circumstances, have any but a beneficial effect.

Hoofland's German Tonic

Was compounded for those not inclined to extreme Bitters, and is intended for use in cases when some alcoholic stimulant is required in connection with the Tonic properties of the Bitters. Each Bottle of the Tonic contains one bottle of the Bitters, combined with pure SANTA CRUZ RUM, and flavored in such a manner that the extreme bitterness of the Bitters is overcome, forming a preparation highly agreeable and pleasing to the palate, and containing the medicinal virtues of the Bitters. The price of the Tonic is $1 50 per Bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a cheaper price, but is it not better to pay a little more and have a good article? A medical preparation should contain none but the best ingredients, and they who expect to obtain a cheap compound, and be benefitted by it, will most certainly be cheated.

The Whole Supreme Court of Pennsylvania Speak for These Remedies.

Who would ask for more Dignified and Stronger Testimony?

HON. GEORGE W. WOODWARD, formerly Chief Justice of the Supreme Court of Pennsylvania, at present Member of Congress from Philadelphia, writes:

PHILADELPHIA, March 16, 1867.

I find "Hoofland's German Bitters" is a good tonic, useful in diseases of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system. Yours truly, GEO. W. WOODWARD.

HON. JAMES THOMPSON, Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 28, 1867.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect, JAMES THOMPSON.

HON. GEORGE SHARSWOOD, Justice of the Supreme Court Pennsylvania.

PHILADELPHIA, June 1 1868.

I have found by experience that "Hoofland's German Bitters" is a very good tonic, relieving dyspeptic symptoms almost directly. GEORGE SHARSWOOD.

HON. WM. F. ROGERS, Mayor of the City of Buffalo, New York.

MAYOR'S OFFICE, BUFFALO, June 22, 1869.

I have used "Hoofland's German Bitters and Tonic" in my family during the past year, and can recommend them as an excellent tonic, imparting tone and vigor to the system. Their use has been productive of decidedly beneficial effects. WM. F. ROGERS.

HON. JAMES M. WOOD, ex-Mayor of Williamsport, Pa.

I take great pleasure in recommending "Hoofland's German Tonic" to any one who may be afflicted with Dyspepsia. I had the Dyspepsia so badly it was impossible to keep any food on my stomach, and I became so weak as not to be able to walk half a mile. Two bottles of Tonic effected a perfect cure. JAMES M. WOOD.

REMEMBER THAT

HOOFLAND'S GERMAN BITTERS

AND

HOOFLAND'S GERMAN TONIC

WILL CURE EVERY CASE OF

MARASMUS,

OR WASTING AWAY OF THE BODY.

REMEMBER THAT

HOOFLAND'S GERMAN REMEDIES

Are the medicines you require to purify the Blood, excite the torpid Liver to healthy action, and to enable you to pass safely through any hardships or exposure.

DR. HOOFLAND'S

PODOPHYLLIN,

OR

SUBSTITUTE FOR MERCURY PILLS,

TWO PILLS A DOSE.

The Most Powerful, Yet Innocent, Vegetable Cathartic known.

It is not necessary to take a handful of these Pills to produce the desired effect; two of them act quickly and powerfully, cleansing the Liver, Stomach and Bowels of all impurities. The principal ingredient is Podophyllin, or the Alcoholic Extract of Mandrake, which is by many times more powerful, acting and searching than the Mandrake itself. Its peculiar action is upon the Liver, cleaning it speedily from all obstructions, with all the power of Mercury, yet free from the injurious results attached to the use of that mineral.

For all diseases, in which the use of a cathartic is indicated, these pills will give entire satisfaction in every case. They NEVER FAIL.

In cases of Liver Complaint, Dyspepsia and extreme costiveness, Dr. Hoofland's German Bitters or Tonic should be used in connection with the Pills. The tonic effect of the Bitters or Tonic builds up the system. The Bitters or Tonic purifies the Blood, strengthens the Nerves, REGULATES the Liver and gives strength, energy and vigor.

Keep your Bowels active with the Pills, and tone up the system with Bitters or Tonic, and no disease can retain its hold, or ever assail you.

Recollect that it is DR. HOOFLAND'S GERMAN REMEDIES that are so universally used and highly recommended; and do not allow the Druggist to induce you to take else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by Express to any locality, upon application to the PRINCIPAL OFFICE, at the GERMAN MEDICINE STORE, 631 ARCH STREET, PHILADELPHIA.

The Franco-German Customs Treaty

THE CATHOLIC DISSENSIONS.

Condemnation of the Petroleuses.

Failure of the Customs Treaty Imminent—The Coming Elections.

PARIS, September 18.—The failure of the new customs treaty with Germany is imminent. The German plenipotentiaries object to the alterations in the text made by the Assembly.

The Legislative Committee of twenty-five will hold weekly sessions, and in the intervals the President and Vice-President of the Committee will represent the Assembly.

Count Von Arnim dined with Thiers on Saturday.

The press urges the people to arouse and take an active canvass in the coming elections for General Councils. The people of the provinces are counselled to be careful in their choice of candidates so that the elections may show how the country stands on the great questions which now agitate it. The elections will be held on the 9th of October.

LONDON, September 18.—The King of the Belgians has arrived at Ryde. His Majesty was not well, and consequently no public demonstrations were made on his arrival.

The foot and mouth disease is rapidly spreading among the catle in Norfolk.

The Austrian Government has sent out a circular to its representatives at foreign courts, informing them of the results of the Gastein and Salzburg conferences. The contents of the circular have not yet been made public.

The Catholic Breach.

A correspondent of the London *Times*, writing from Munich, August 31st, says: Great and unexpected was the consternation of the clericals and the satisfaction of the liberals when two days ago the letter of the Minister of Public Worship to the Archbishop of Munich appeared, dated the 27th of August, which throws down the gauntlet to the clerical party or rather takes up that thrown down by the latter. The letter is a long and elaborate refutation of the arguments put forward by the Bishops of Bavaria, to justify their proceedings agains Doellinger, and others who would not submti and recognize the dogma of infallibility. It declares the dogma to be an innovation, dangerous and adverse to the interests of State; it upholds the royal right of the Placetum and promises its protection to those who may incur the displeasure of the Episcopate by their resistance to the new dogma. The Bavarian Government upholds the principle that the Bavarian Archbishops and Bishops are subject, like every one else, to the laws of the kingdom. The danger threatening the Constitution and the violation by the Bishops of the laws of the Kingdom force the government to measures which it would have liked to avoid. It will refuse its assistance to the propagation of the new doctrine, carrying out those provisions which may be made in consequence of the new doctrine, and it will hold fast to the principle that the decisions which the church authorities might take, with regard to those who do not recognize the new dogma, can have no effect in civil and political matters; and if necessary, it will take measures to insure the independence of members of the church against clerical pressure.

Condemnation of the Petroleuses.

NEW YORK, September 18.—A Versailles letter, speaking of the condemning to death of four petroleuses, for the crime of communism, says it transpired in the testimony that the condemned served drink and food to the insurgents, or helped them to plunder.

THE WIGAN DISASTER.

Terrible Scenes at the Explosion in a Coal Mine at Wigan.

NEW YORK, September 18.—A London paper gives the following account of the colliery explosion near Wigan on the 6th inst.: At eleven o'clock this morning the men in the ninefeet and channel were at work, and two sinkers were descending the upcast shaft to join their fellows below, when from the downcast came a blast like the discharge from a cannon, followed by a terrible discharge of soot and smoke from the upcast, which lasted several minutes, and which was scattered by a light breeze over the adjacent fields. At the first named, the cage, then standing on a raised platform, was whirled out of its position, and the bowman had an escape which greatly terrified him: while at the second such a wreck was made of the gear that it is wonderful how the man ever came alive from the chaos. He did sustain severe bruises, and was taken home in a cart.

When the first exploring party descended the downcast, they found three men alive at the furnace, which is placed in the upper seam, known as the four-feet. They then descended to the nine-feet, where there were a number of dead bodies, and several colliers alive, calling for water. These were sent to the surface and attended to, and the explorers continued their work; but shortly afterwards the engineers on the pit bank were startled by a second and third explosion of fire damp. At the greatest possible speed, consistent with safety, the cage traveled from the bottom to the surface, for the winding apparatus happily had not been damaged, and at the third journey all the explorers were safe above ground, although several had a very narrow escape. A consultation was held and it was decided to brick up the shaft, as there could be no doubt that all below were dead, and that there was the greatest danger in any further examination of the mine. The dead number sixty-nine, of whom sixty-two are colliers, day laborers and drawers in the nine-feet seam; six are sinkers in the upcast shaft, buried beneath the debris, and one is a collier brought out alive, who died an hour or two afterwards.

OHIO POLITICS.

Democratic Meeting at Lima.

Special Dispatch to the Commercial.

LIMA, O., September 18, 1871.

The Democracy held their second meeting of the campaign here to-day. It was expected that they would have a large and enthusiastic meeting, but it fell far short, and there was little or no enthusiasm manifested. General Ewing spoke at two o'clock in City Hall, which was comfortably filled. Hon. O. J. Dodds is speaking this evening to a fair audience, not near so large, however, as Governor Hayes had here about a week ago.

POLITICAL.

The Massachusetts Conflict.

BOSTON, September 18.—The *Advertiser* to-morrow will have the following: We have seen Senators Sumner and Wilson, and are authorized by them to say that they deeply regret and deplore the extraordinary canvass which General Butler has precipitated upon the Commonwealth, and especially the attacks against the existing State government and the Republican party of Massachusetts; and that in their opinion his nomination as Governor would be hostile to the best interests of the Commonwealth and of the Republican party.

A Corrupt Judiciary Our Curse.

MEETING OF THE COMMITTEE OF SEVENTY.

The following call was issued this evening. The Executive Committee of Seventy, appointed by the taxpayers and citizens for financial reform in the city and county of New York, are requested to meet at the rooms of the Chamber of Commerce, at 12 M., on Tuesday, September 19, on business of special and immediate importance.

[Signed,] HENRY G. STEBBINS, Chairman.
BARCLAY GALLAGHER, Assistant Secretary.

WHAT THE ENGLISH PRESS THINK OF IT—A CORRUPT JUDICIARY EATING OUT OUR VITALS.

The London *Telegraph* of the 6th says editorially, in regard to the alleged frauds in the New York city government: "We have been accustomed to impute the greatest political and social corruptions of Europe to the one-man rule governments of Russia and old France; but neither of these Old World despotisms can hold a candle as regards corruption and dishonesty to the brawny young republican giant across the Atlantic. The strength of Tammany Hall and its champions is so great that the chance of their being brought to book and punished is extremely problematical. But the whole of the municipal corruption in America is directly traceable to the deep-seated ulcer that is eating out the heart of the American body politic. The framers of the Constitution, as it is the custom of our kinsman to dub Washington, Jefferson, Alexander Hamilton and their contemporaries, were well aware that if once the judiciary of the United States became elective, or in other words corrupt, the experiment of republican institutions upon that noble continent would prove an utter failure. The terrible responsibility of the American municipalities could never exist if Tammany Hall, the Erie swindle, as Mr. Adams terms it, and other rings had not judges in their pay.

The formidable and rapid growth of municipal taxation in New York will probably coerce her taxpayers with some early step for their own protection. Meanwhile, speaking in a spirit of hearty good-will, we adjure them to cleanse the ermine of their judges, and thus get out of the corruption which, unless speedily checked, will prove the ruin of the Commonwealth.

Mitchell, President of the Commonwealth National Bank of Philadelphia, of her intention to visit Philadelphia.

YESTERDAY'S REGATTA.

Seven Boats Enter for the Race—The Duquesne Wins in 14:55 in a Distance of Two and One-Quarter Miles—Award of the Prizes.

The regatta which came off on the Upper Allegheny course, yesterday afternoon, attracted a large crowd of spectators, and proved one of the most interesting and best contested affairs of the kind which has come off this season. The contest was for prizes offered by the proprietors of the Belvidere Hotel, for four-oared boats; the first prize being a pair of beautifully engraved silver goblets, of the value of about fifty dollars. The second prize was a set of oars of the most approved make and pattern. Seven crews entered for the race, and all started save one, a crew from the Beck Club.

After tossing for positions the following boats appeared in line at the call of the referee: the Duquesne, Pittsburgh, W. S. McGee, J. B. Jones, Columbia and Howard. A fine start was made, the boats keeping well together from McCandless' pier until near the Sharpsburg bridge. When nearing this structure the Duquesne was ahead, with the Pittsburgh, of the Fisher Barge Club, lapping it. The buoy turned, the Duquesne boys put on a spurt, and leaning well to their work accomplished the two miles and a quarter in 14 minutes and 55 seconds, the Pittsburgh coming in second in 15:05 and the others following in the order named, viz: the J. B. Jones, Howard, W. S. McGee and Columbia.

The prizes were awarded shortly after six o'clock, the Duquesne getting the cups and the Pittsburgh the set of oars. The affair altogether was a highly successful one, and reflected credit on all concerned.

Public Amusements.

PITTSBURGH OPERA HOUSE.—The Oates' combination made its debut in our city last evening to a large audience, appearing in the burlesque entitled "The fair one with the Blonde Wig." The performance was highly enjoyable throughout and was received with many manifestations of delight.

FIFTH AVENUE OPERA HOUSE.—Last evening the Abbott pantomine troupe made its first appearance in our city, (the audience present filling the auditorium) and gave the most thorough satisfaction. The attraction of last evening, "The Three Hunchbacks," will be repeated to-night.

VARIETIES.—Manager Aims is unceasing in his efforts to please his patrons. The new performers met with a hearty reception last night. A good bill this evening.

ITEMS IN BRIEF.

HENRY WESLEY, a colored man, was arrested yesterday on a charge of horse stealing, preferred before the Mayor by John Megraw. The animal was stolen from a pasture field near Claremont. The accused will have a hearing this morning.

MR. CASSELBERRY, who attempted to commit suicide on Saturday morning last at his residence on Esplanade street, is still lying in a precarious condition. Up to a late hour last night he showed no signs of improvement, yet the physicians have not given up hopes for his ultimate recovery. They state that if the unfortunate man survives until this evening, they will entertain strong hopes for his recovery.

MR. MURPHY, one of the Superintendents of the Manchester Passenger Railway, visited the office of Alderman Bowden yesterday, and made information against C. Langley for obstructing the tracks. The prosecutor alleges that Langley was driving a wagon along the track, and not only refused to "turn out" when requested, but actually stopped his vehicle, and thus checked the progress of the car. The usual papers were made out.

ARTHUR TRAYER, a brakeman on the Pittsburgh, Fort Wayne and Chicago road, met with a severe accident at the outer depot yesterday morning. He was engaged in coupling cars, when, unfortunately, he was caught between the bumpers and crushed in a frightful manner. He was removed to his home in Frazier alley, and Dr. Buchanan, surgeon of the road, and Drs. Wallace and McClelland summoned, who attended to his injuries. At last accounts he was lying in a critical condition.

Killed on the Railroad.

About half-past one o'clock yesterday afternoon, Henry Boultman, a lad aged thirteen years, who resides at No. 119 Main street, was instantly killed while attempting to get on a freight train of the Pittsburgh, Fort Wayne and Chicago Railroad. The lad had been sent to a store, and while walking along the track between Federal and Sandusky streets, a freight train, westward bound, consisting of twenty cars, passed by. Boultman attempted to get on between the last two cars, when he missed his footing and fell, and the wheels of the last car passed over his neck, completely severing it from his body. The remains were removed to the baggage room of the Fort Wayne depot, on Federal street, where the Coroner held an inquest. The jury returned a verdict of accidental death, and attached no blame to the employees on the train.

Meeting of the Board of Health.

A regular meeting of the Board of Health was held last evening in their room in the City Building. The meeting was called to order at seven and a half o'clock by the President, after which the minutes of the preceding meeting were read and approved.

Mr. Arrott moved that David Macferron, the City Treasurer, be appointed the Treasurer of the Board. Carried.

Mr. Jones moved that the Secretary be instructed to draw a warrant for $100, in favor of Health officer Williams, for one month's salary. Carried.

Mr. Arrott offered the following:

Resolved, That we request all undertakers in the city to furnish reports of the various interments made, and that the Committee on Ordinance be instructed to have the ordinance constituting the Board of Health so amended as to require the faithful performances of said duty. Adopted.

Mr. Arrott also offered the following resolution:

Resolved, That our street railway companies be and they are hereby requested to abandon the system of using cushions upon the seats in their cars, as they are susceptible of retaining the infection from persons having small-pox or other contagious diseases that may have sat upon them; and adopt in lieu of them the wooden lattice or ribbed seat, and that the Health officer be instructed to confer with said managers in reference to the same. Adopted.

On motion, the meeting adjourned.

Of Wm. Fleming & Co. 139 Wood street—Rush for the New Styles—15 to 20 per Cent. Less than any Other House in the City.

The great Hat Emporium of the West, Messrs. Wm. Fleming & Co., No. 139 Wood street, as is customary with them, have taken the lead of all other houses in opening the fall styles of hats and caps, and as a consequence the rush has been unprecedented. Mr. Wm. Fleming returned from the East last week with an immense stock, and if the rush should continue for a few days, as it doubtless will, he will be compelled to make another trip East to replenish his fall stock in order to meet the demand.

The well known reputation of this immensely popular hat house for keeping all the latest styles and for selling goods at prices far below those of any other first-class establishment, has increased its trade far beyond that of any other establishment in the west, and their well known character for honesty and fair dealing is daily increasing the popularity of the firm.

The "Tourist" hat, the latest out, is in great demand, and Fleming & Co. will endeavor to keep a supply of them on hand. Their facilities in the east for purchasing goods enable them to offer great inducements to customers, both wholesale and retail. Rember that Wm. Fleming & Co., 139 Wood street, keep the best goods in the market, and sell from fifteen to twenty per cent. cheaper than the cheapest.

ATTENTION.

Workingmen, Clerks and Merchants.

Those beautiful grounds heretofore owned and occupied by the late Captain T. J. Brereton, in Lawrenceville, known as Denny's Grove, adjoining Thirty-third street, comprising nearly forty acres, have been laid out into 300 building lots of various sizes, ranging from 22x100 feet to quarter and half acre lots.

Of the vast amount of real estate in and out of the city, this is undoubtedly some of the most desirable now offered to the public.

Situated in the Thirteenth ward, the very center of a growing city, easy of access. The cars of the Penn Street Passenger Railway pass every two minutes within two squares. Lawrenceville station, on the Penn. R. R., where all accommodation trains stop, is adjoining this property; by Central Passenger R. R. to Minersville, it is but five squares distant. Liberty street another means of direct access, is now paved up to Thirty-third street, the entrance to these grounds.

Brereton avenue, of sixty feet width, running through the middle of this property, will soon be connected with Liberty street at Morton street, near the roundhouse of the Pennsylvania Railroad, where a magnificent iron bridge will be built to cross all their tracks, and thus connect Brereton avenue with Center avenue and Fifth avenue. Another and very important advantage which these lots possess over many others now offered for sale is that the *WORKING MAN, THE CLERK OR MERCHANT CAN, FROM ANY BUSINESS PORTION OF THE CITY, WALK HOME AND NOT DEPEND ON RAILROAD TRAINS, AS YOU ARE COMPELLED TO DO WHEN LIVING THREE OR FOUR MILES AWAY FROM THE CITY, AND WHERE A DELAY OF BUT A SINGLE MINUTE AFTER TIME COMPELS YOU TO REMAIN IN THE CITY OVER NIGHT.*

These are very important considerations to a workingman or business man and should not be overlooked. The city water is on the premises, gas but a few squares distant, good schools and churches in the immediate neighborhood, and last, but not least, these lots are in a clear and pure atmosphere, most of them covered with beautiful shade and fruit trees, and sold at less prices than lots of equal sizes are now sold for three and four miles away from the city.

That handsome little Gate House at the entrance of "Beretons," will also be sold with about ½ acre of ground. Sale will take place on Wednesday, September 20th, at 10 o'clock A. M. Here now is an opportunity to obtain a home on long and easy terms at a *low price*. Deeds delivered immediately after sale. Title undisputable.

Successful Enterprise.

The removal of the great modern Wonder store, which for some weeks past has created such a furor of excitement at No. 61 Wood street, to No. 60 Fifth avenue, in the room recently occupied by J. M. Hoffman as a music store, is only an evidence of the success of the enterprise, and as the proprietors have secured an elegant location and central place of business the great wonders will continue to increase, and their business will materially increase with them, particularly as many new attractions have been added to the immense stock of valuable goods. It will well repay a visit to this establishment just to take a look, even if you do not want to purchase. We would, therefore, advise you to call and see how they can afford to sell such valuable articles at the low price of One Dollar.

Public Sale of the Allegheny City Poor Farm Property.

Pursuant to orders by the Allegheny City Councils, the Board of Directors of the Poor have instructed Mr. Leggate to sell at auction next week 100 lots of this fine property. These occasional sales of the "Poor Farm" lots always excite the highest public interest among real estate men. Mr. Leggate's advertisement announcing day of sale and the particulars will shortly appear, and will no doubt be hailed with considerable enthusiasm.

By reference to one of A. Leggate's advertisements on fourth page, it will be seen that a very desirable dwelling on one of the most desirable avenues in Allegheny (Lincoln avenue), is to be publicly sold on the premises next Friday afternoon. A word to the wise is sufficient.

LOUISVILLE
CEMENT.
The Best. The Cheapest.

This Cement has by far the most extensive sale west of the Alleghanies.

Most of the Public Works of the West and South for thirty-five years have been constructed with it.

Though of acknowledged superior strength and quality the Manufacturers are determined to put it in all the principal markets at prices to compete with inferior brands.

It takes more Sand than any other Cement, and is cheap enough in Pittsburgh to supercede all common lime in the foundations of good buildings.
